DATE: January 14, 2011

SUBJECT: MOSIS February Cycle/Assessment Pre-Coding/NEW EOC Collection/ODSM Webinars

FEBRUARY CYCLE:

The February Cycle will be available in the MOSIS Data Collection System on Monday, January 17th. The Student Core file collects a record for each student that is enrolled or was a member of your district the last Wednesday in January. The Graduate Follow-up file collects a record for each student who graduated the previous school year, as well as dropouts who had an IEP who were in grades 9-12, and GED dropouts (exit code D05) who were a Perkins Concentrator.

A webinar containing information about the February Graduate Follow-up submission is available at <http://www.dese.mo.gov/Webinar12-10-10-DSM.htm>

ASSESSMENT PRE-CODING:

The End of Course Spring and MAP Pre-Code files are due on Friday, January 21st. These collections allow districts to submit student information for the purpose of pre-population of assessment testing labels. Additional information can be viewed at this link: www.dese.mo.gov/MOSIS/precode.html

***NEW* END OF COURSE EXCEPTIONS COLLECTION:**

In March we will begin a new collection to allow districts to report End of Course exceptions. A letter was sent to school administrators with details of this new collection. This letter can be viewed at this link: <http://www.dese.mo.gov/am/documents/LS-11-001.pdf>

Also, a MAP EOC History Report has been added to Crystal reports which can be reviewed to determine if a student has participated in each of the four EOC assessments.

ODSM MONTHLY WEBINARS:

The Office of Data System Management has began offering a monthly webinar presenting information and updates for any district staff that deal with district data reporting. Any upcoming or previous recorded webinars may be viewed at this link: <http://www.dese.mo.gov/webinar-schedule.htm>
