

FROM: MOSIS
TO: Core Data, MOSIS, MOSIS Listserv Subscribers
DATE: February 2, 2010
SUBJECT: February Cycle

As a reminder the February Student Core and Graduate Follow-up submissions through the MOSIS Data Collection are due February 15th.

The Student Core file collects a record for each student that is enrolled or was a member of your district the last Wednesday in January.

The Graduate Follow-up file collects a record for each student who graduated the previous school year, as well as dropouts who had an IEP who were in grades 9-12, and GED dropouts (exit code D05) who were a Perkins Concentrator.

NOTE: We recently discovered that a MOSIS business rule in regards to collecting the dropout information for Graduate Follow-up was not accurately capturing the data we needed. Due to this you may have received errors in your Graduate Follow-up trial asking you to provide follow-up for students who did not need to be reported. We have revised this rule, and now it should be working appropriately.
