SUBJECT: MAP Grade Level Precode Labels – Multi-racial race/ethnicity

Districts are beginning to receive the MAP testing materials. The students precoded as multi-racial are not displaying race/ethnicity on the student rosters or the precode labels. Districts may still use the precode labels for these students, as long as no other issues are present with the label(s). Race/ethnicity will be collected, for accountability purposes, through the April Student Core collection in MOSIS.
