SUBJECT: New June Cycle PILOT– Student Course Completion

Recently a memorandum was sent to school administrators regarding the ARRA Round Two Requirements. These requirements are part of the State's assurances for receiving the remainder of the State Fiscal Stabilization Funds under ARRA. Please reference this letter and the State Fiscal Stabilization Phase II Application at <http://www.dese.mo.gov/divimprove/sia/StateFiscalStabilizationApplication.html> for more information.

As part of the reporting requirements under ARRA we will be collecting additional student level data including courses completed and grades earned as part of the existing June MOSIS Data Collection. We will **PILOT** this collection during the 2009-10 school year, with the first required submission due in the 2010-11 school year. Within the next month we will provide webinars addressing this new collection. Please reference our MOSIS Course Completion Overview located at <http://dese.mo.gov/planning/documents/CourseCompletionOverview.pdf> for details about this submission.

In the future we will also be collecting teacher/principal evaluation data and will provide additional information on this topic when it becomes available.
