

## April Cycle: Core Data Screens 30 and 31

FROM: Office of Data System Management

TO: Core Data, MOSIS Contacts

DATE: April 1, 2011

SUBJECT: April Cycle: Core Data Screens 30 and 31

In the April Cycle of Core Data, we anticipated the new versions of Core Data Screen 30 (District Level Census of Technology), and Screen 31 (Building Level Census of Technology) to be available for entry today, April 1<sup>st</sup>. However, testing last night indicated an issue on the new screens and they are not accessible at this time. We would recommend you check the availability of the screens on Monday, April 4<sup>th</sup>. Thank you for your cooperation.

Visit <http://dese.mo.gov/divimprove/instrtech/> for information on the changes to Core Data Screens 30 and 31. You will also find links to documents describing the new screens and a webinar discussing the changes and definitions.
