DATE: May 13, 2010

SUBJECT: MOSIS 2009-10 End of Year Reporting

**JUNE CYCLE:**

The June Cycle in the MOSIS Data Collection component will become available on May 17<sup>th</sup>. This cycle includes the Student Core, Enrollment/Attendance, Discipline, Summer Course/Student Assignment, and the new pilot for Course Completion.

Training materials for the June Cycle are available on the MOSIS Training website at <http://dese.mo.gov/MOSIS/training.html>.

A chart providing information about the Core Data Screens populated by MOSIS can be found at <http://dese.mo.gov/MOSIS/CoreDataScreensPopulated.html>.

**Please Note:**

The Summer Course Assignment file is required to be submitted through MOSIS (data entry on Core Data Screen 24 will not be allowed). The Summer Student Assignment file is optional, as the Caseload field may still be used to report course enrollments.

The Course Completion file is a PILOT. We encourage you to submit the information to help us work through this process.

The Attendance and Graduation data from the June Cycle will be used in July for the preliminary AYP calculations. It is important that correct data be available for these reports at this time.

**JUNE ID CLEANUP:**

The June ID Cleanup (Assessment ID Clean-up and link to April Demographic information) will become available on June 21<sup>st</sup>. DESE will create a trial for each district in the state, and when you log onto the MOSIS Data Collection component the trial will be in your Current Submissions list. The purpose of the trial is to make sure every record has a valid MOSIS ID and that every record can be linked to an April Student Core record. This is also an opportunity to upload teacher names for grades 3-8, one each for Communication Arts, Math, and Science. You will need to fix any errors that appear on the trial and Certify the trial. We will allow you approximately 2 weeks to Certify this trial.
