

June Cycle MOSIS/Core Data

FROM: Office of Data System Management

TO: Core Data, MOSIS Contacts

DATE: May 17, 2011

SUBJECT: June Cycle MOSIS/Core Data

The June Cycle is available in MOSIS. This cycle includes the Student Core, Enrollment/Attendance, Discipline, Summer Course/Student Assignment, and the Course Completion.

The June Cycle in Core Data is not yet available, we expect it to be opened later this week. We will send an update when Core Data is available.

For additional information on the June Cycle, the End of Year Reporting Webinar presented in April is available at <http://dese.mo.gov/webinar/Webinar4-28-11-DSM.htm>.

MOSIS NOTE: We've discovered that the Course Completion Collection is not allowing the additional field of Course Time Unit to be uploaded at this time, as well as the new code of NC for No Credit is currently not a valid code. We are working on both of these issues and will update you when they are fixed.
