APPENDIX B
Core Data Screen 24A – Summer School Application

The Summer School Application, Screen 24A, is made available to Missouri LEAs to apply for approval to operate a state-funded summer school program. The information must be complete and submitted by May 2 of the year the summer session is to be held. All approved LEAs that offer summer school programming must provide information specific to their program as part of the MOSIS June Summer Course Assignment submission.

Item Definitions – Screen 24A-Summer School Application

Summer School Director Information

First Name – First name of the educator that directs the summer school program.

Last Name – Last name of the educator that directs the summer school program.

Phone Number – Phone number of individual that directs the summer school program.

Email – Email of individual who directs the summer school program.

Program Information

Line – A sequential number for each line assigned by the system.

Program Location – 4-digit number and name of attendance center where the students will be attending in the Fall, not the actual physical location where summer instruction is given (Select from drop down list.)

Estimated Enrollment – The number of students estimated to be enrolled in the summer program at each program location.

Grade Span – Lowest and highest grades of the attendance center; valid selections are K and 1-12. (Select from drop down list.)

Open Date – The date the summer school program begins (use extra lines for multiple sessions with different start/close dates).

Close Date – The date the summer school program closes.

Days Not in Session – Total number of planned days that school will **not** be in session between the starting and closing dates.

Total Days in Session – Total number of planned days that school will be in session between the starting and closing dates.

Hours Per Day – Total number of hours between the starting time of the first class and the dismissal time of the last class, excluding lunch periods.

Total Hours in Session - Total number of planned hours that school will be in session between the starting and closing dates.

Summer School enrollment exceeds Regular year enrollment – If the estimated summer enrollment exceeds the enrollment reported during the traditional school year, the LEA must select the yes button. The comment box must include the rationale and capacity to serve the excess enrollment.
