

MOSIS June Course Completion Collection Updates

FROM: Office of Data System Management

TO: Core Data, MOSIS Contacts

DATE: June 8, 2011

SUBJECT: MOSIS June Course Completion Collection Updates

We are currently updating a few business rules for the June Course Completion collection. These will go into effect on July 1st. At that time if you upload or revalidate your existing trial you may see some changes to the edits you are receiving.

These rule changes include:

SCC00469: Changing rule to include assignment number when determining record uniqueness.

SCC00482: Changing rule to allow course number of the credit being earned in an at risk course to be reported in the June Course Completion.

We will also be updating the Report for 'Oct State ID Missing Course Completion' that currently identifies students in all grade levels, it will be updated to only reflect grades 9-12.
