DATE: June 30, 2010

SUBJECT: MOSIS June Cycle Update

**JUNE CYCLE:**

This is a friendly reminder the June Student Core/Enrollment Attendance submission is due today, June 30<sup>th</sup>. The information will be used for the preliminary AYP release scheduled to be available the end of July.

The June ID Cleanup (Assessment Demographic Information) is currently available in the MOSIS Data Collection component. DESE has created a trial for each district in the state, when you log onto the MOSIS Data Collection component the trial will be in your Current Submissions list. You will need to fix any errors that appear on the trial and Certify the trial by July 8<sup>th</sup>.

**FOR YOUR INFORMATION:**

You may be receiving an edit that is a warning on Screen 14 that states 'Calendar could not be found for building/grade. (ADA could not be calculated.)' If you receive this, and your calendar information has been submitted you may ignore this edit.

The Educator Evaluation submission that is a PILOT for the June Cycle will be available in the MOSIS Data Collection component early next week. This submission collects information about an individual educator and the overall outcome of the educator's evaluation. The mandate for this collection comes from a requirement in the Federal "State Fiscal Stabilization Phase II Application". The file layout, business rules, and excel template are available at <http://www.dese.mo.gov/MOSIS/FileLayout.html>. As we get ready for next year's data submissions we are making this available as a pilot for the 2009-10 school year, and it will be required in 2010-11.
