DATE: July 26, 2011
SUBJECT: MOSIS Data Collection State Level Trials

The state level trial for the 2011 June Student Core/Enrollment Attendance submission is available. The state trial is accessed by clicking on the certified trial in the MOSIS Data Collection system, and then by choosing 'View state-level violations' in the pink box. The state trial looks across all districts for students reported in more than one district with an FTE greater than 1 for students who are marked as enrolled on the count date. It also lists students reported as dropouts that may be recovered due to enrolling in another district, as well as students who were reported as transfers but did not attend another district. This trial will be updated on Monday, Wednesday, and Friday evenings.
