SUBJECT: Student Core State Trials

We are publishing the state trial for the 2009 and 2010 October Student Cores and the 2009 February Student Core. You will see the state trial available in a pink box when you click on any of these submissions in the MOSIS Data Collection. This state trial will notify districts which have students reported across 2 or more districts with and FTE greater than 1 and the student marked as enrolled on the count date.

You may recall earlier this year we had published this same trial, but removed it due to some issues with it working appropriately.
