SUBJECT: Webinar Announcement: Graduate and Dropout Follow-up Reporting

We have scheduled a webinar to review the reporting of follow-up data for the previous year's graduates and dropouts (selected dropouts only), including the students for which follow-up is required, the codes and definitions used for the collection, and the usage of the data. These data are reported via the February MOSIS Graduate Follow-up File. The webinar is pertinent to the district personnel responsible for conducting follow-up as well as MOSIS/Core data staff.

The webinar will be held Friday, December 10, 2010, at 11:00 a.m. See the following webpage for more information and the link to the webinar:
