Quiz QUESTION

- Is the MOSIS April Cycle a required cycle?

✓ YES

✗ NO

Understand how MOSIS will use data provided from the April Cycle

- MOSIS will capture the demographic data of the students which will be used to link to the student's assessment record's.

Understand which students should be reported in the April Student Core File.

- A single record for every student.
- What count date should be used to determine student status?
 - The testing window is from March 31 – April 25. DESE has suggested as of April 1st or as close to the status of the student during the districts testing window.

Review the data items required to be reported in the April Student Core File.

Questions

April Student Core Data Items

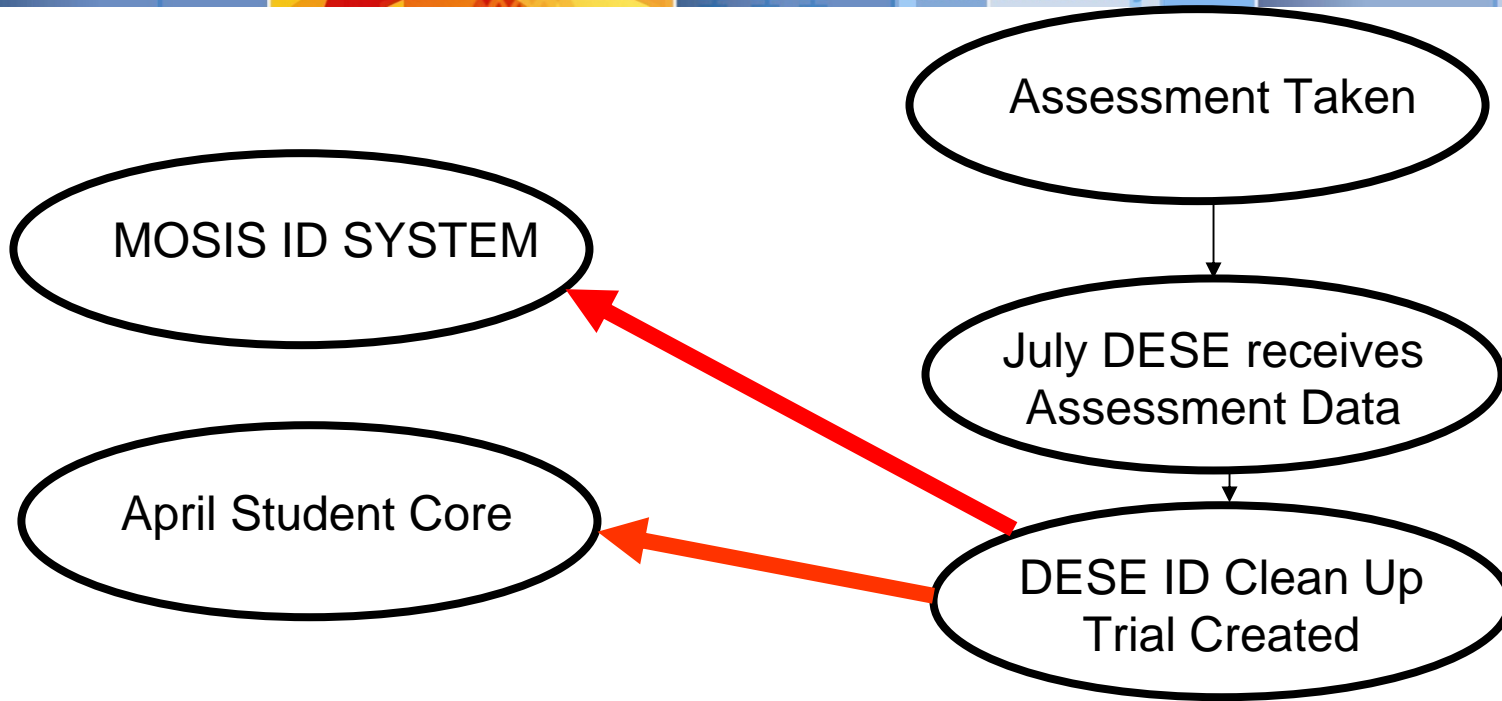

Quiz QUESTION

- April Student Core data will be used to link to what?
 - A – MAP Assessment Records
 - B – MAP-Alternate Assessment Records
 - C – MAC-II Assessment Records
 - D – All of the above

Review how the April data will be linked to the MAP Assessment records.

- Assessment Data file from the testing company.
- July ID clean up and linkage to the April records
- Collecting TEACHER NAME field per Content Area

– DESE ID Clean Up – July 2008

- 1) Verify **every** assessment record has a valid MOSIS ID
- 2) Verify **every** assessment record has an April Student Core Record
- 3) Allow districts to provide a “teacher name” per content area

- 
- Each student will be linked to the district and building where the student took the test.
 - Each student record will have ONE teacher name tied to the assessment record captured from the GIS form.
 - July ID clean up process will be an opportunity for a district to include THREE (3) additional TEACHER NAME fields which will be linked to the student assessment record based on content area and be made available via the MAP Reports when the data is released.

MOSIS Phase III – Walk Through

- The on-line process is the same one used for the MAP Pre-Coding.
- The district submission needs to be one file for the entire district.
- The user will logon the DESE web application login screen, choose the Missouri Student Information System (MOSIS) option, “Agree” to the security notification and then choose the appropriate component.

MOSIS Phase III – MOSIS Data Collection

Basic Steps

1. Collect and enter data into local systems.
2. Extract data out of local systems.
3. Validate data extracted from local systems.
4. Merge extracted data into district level datasets.
(if necessary)
5. Create trials by uploading datasets to the online MOSIS Data Collection System.
6. Correct errors and review warnings in the created trial.
7. Certify created trials.

MOSIS Phase III – 3 Ways to Correct trial data.

1. Local Student Information System correction
 - Always desirable to correct data as close to the source as possible.
2. Download trial and correct data via text editor or spreadsheet application.
 - Microsoft Excel can alter data and must be used with care.
 - These changes do not appear in your SIS system.
3. Edit data online via MOSIS Data Collection System
 - These changes do not appear in your SIS system.
