

Algebra I

For the convenience of the districts, DESE is providing this one-page, at-a-glance translation of End-of-Course Assessment raw scores into a curved percentage. This was done using a square root curve ((square root of (number correct divided by number possible)) x 100). For Algebra I without the Performance Event, a total of 35 points are possible.

Although DESE does not require districts to use EOC raw scores as part of students' final grades, it is recommended. Additionally, using percentages curved on this scale is not required.

Points Possible	Straight %	Adjusted %	Points Possible	Straight %	Adjusted %
35	100.00%	100.00%	17	48.57%	69.69%
