 Indicate subgroups: _____

Effectiveness:

Give a brief summary of statistical data that demonstrates effectiveness of your program/services. (Appropriate data will be shared with parents). Sylvan Learning Centers are located throughout the US and operate on a "Skills Mastery" basis rather than subject basis. Programs offered are highly successful and effective in improving "skills" and are designed to integrate with normal classroom activities on a supplemental basis through off-site, after-school instruction. **The Ace It Tutoring Program** is a specially designed 30 or 45 hour program in either reading or math which includes both a pre- and post-assessment published by AGS Publishing. The program is conducted on-site in schools, using the school's own specially trained teachers. The curriculum is scientifically based and aligned to state and district standards to help students learn skills on standardized tests.
