

Planning and sponsorship for this training was a joint effort among the Missouri Regional Professional Development Centers, the Missouri Department of Elementary and Secondary Education, the North Central Regional Resource Center, the National RTI Center, the Mid-Continent Comprehensive Center, and the Midwest Equity Assistance Center.

Response to Intervention: A System Overview

hosted by

The Missouri Regional Professional Development Centers

Training available in the following locations:

Rolla:

February 22-23
(573) 341-6472

Warrensburg

Sept. 30—Oct. 1
(660) 543-8240

Cape Girardeau

March 17-18
(573) 651-5161

**Northwest/Northeast
Kirksville**

August 9-10
(660) 785-4310

\$125.00 per person

Registration includes breakfast, lunch and materials for both days.

Join us for this 2-day training to learn about Response to Intervention (RTI) as a tiered instructional model to implement systems of change.

This awareness level training will feature presentations from the national perspective about what RTI is and is not, its alignment with other initiatives, as well as the state's perspective about where we are in terms of three-tiered models of intervention.

Schools currently implementing RTI will be showcased along with discussion about resources to assist districts in exploring initial steps to implementation.

Participants are required to attend in district teams of three (3) or more with at least one administrator, e.g. superintendents, principals, or directors.

On-line registration can be found on our website at:
