

**KEY to Codes on the Mini-Maps found in upper right corner of node boxes on mini-maps**

<b>Code</b>	<b>Meaning</b>	
IP	Initial Precursor	
DP	Distal Precursor	
PP	Proximal Precursor	
T	Target	
S	Successor	
SP	Supporting Node	Supporting nodes (SP) only appear in some ELA testlets. These nodes are assessed in a testlet with the linkage level node in cases where the skills described by the two nodes are so closely related that that testlet is more coherent for students if both are assessed.
i,		The small "i," followed by a comma is actually a separate code generated by the map visualize that denotes the fact that items are connected to the node in the software system. Unfortunately at this time DLM cannot turn off that feature in the mini maps displays.
UN	Untested
