CONSIDERATION OF CLASSIFYING SCHOOL DISTRICTS UNDER THE MISSOURI SCHOOL IMPROVEMENT PROGRAM (MSIP 5)

STRATEGIC PRIORITY			
Access, Opportunity, Equity – Provide all students access to a broad range of high-quality educational opportunities from early learning into post-high school engagement.			
SUMMARY			
<p>The Department of Elementary and Secondary Education (DESE) issued the first Annual Performance Report (APR) under MSIP 5 in the fall of 2013. DESE produces the district’s APR as an objective analysis of each district’s attainment of the MSIP 5 Performance Standards and Indicators. The Department produces APRs for charter schools as well. Those APRs are not included in this list because charter schools are not classified by the State Board of Education.</p> <p>DESE reviews each district’s classification status and the APR supporting data for the three most recent APRs to identify status and trends in performance outcomes. Other considerations for reclassification may include Comprehensive School Improvement Plan goals, previous DESE MSIP findings, financial status, leadership stability, certification of the superintendent, etc. A district’s accreditation classification remains in effect until the State Board of Education rules otherwise.</p> <p>In accordance with Section 161.855.4, RSMo, DESE is not basing classification recommendations on the results of new assessments.</p>			
PRESENTER			
Chris Neale, Assistant Commissioner, Office of Quality Schools, will assist in the presentation and discussion of this agenda item.			
RECOMMENDATIONS			
The Department recommends that the State Board of Education take no action for five provisionally accredited school districts.			
The Department recommends that the State Board of Education classify the Calhoun R-VIII School District as accredited.			
The Department recommends that the State Board of Education classify four previously accredited school districts as provisionally accredited.			
The Department recommends that the State Board of Education classify 507 accredited school districts as accredited.
