PPE Buyer Best Practices: Beware of vendors pushing counterfeit PPE products. Some tips for avoiding being scammed are: making sure they have a business email and not Gmail or Yahoo, be very cautious of sellers asking for payment upfront, extremely low prices. If it looks too good to be true, it probably is.

- COVID Vendor Check: <https://www.procurated.com/covid> is a free platform that allows state and local governments, and educational and healthcare institutions to report on good and bad (e.g., price gouging, scams, fraud) supplier behavior during the coronavirus era. You can also search for reviews of COVID-19 suppliers written by your peers across the country.
- We want to know if you had a bad experience with a vendor. Please contact us at [supplysolution@ded.mo.gov](mailto:supplysolution@ded.mo.gov) to tell us about it.
