STRATEGIC PRIORITY

Teachers and Leaders – Prepare, develop and support educators to ensure an effective teacher in every classroom and an effective leader in every school.

SUMMARY

In January 2014, the State Board of Education approved independent rules for each distinct area of certification. These rules went into effect in August 2017. Two significant changes to the new rules included alignment to the Missouri Teacher Standards and an increased emphasis on reading instruction. Each preparation program in the state submitted information to the Department demonstrating the alignment of postsecondary level coursework to the new certification requirements.

The attached list of preparation programs for each higher education institution includes those that have demonstrated alignment to the new requirements and are therefore approved to recommend candidates for the designated area of certification. New certification areas recommended for approval are indicated with an asterisk.

RECOMMENDATION

The Department recommends that the State Board of Education grant approval for the certification areas listed for each institution.
