

**PERKINS IV ENROLLMENT/PARTICIPATION IN
CAREER EDUCATION PROGRAMS**

November 14, 2011

Report unduplicated enrollment of all students earning one or more credits in any department-approved career and technical education course during the reporting year. Federal reporting requires unduplicated identification of nontraditional student enrollment. If a student is enrolled in more than one program area (Agriculture, Family Consumer Science, Business) report them only in their primary field of study. The following chart is to be used for identification of nontraditional enrollment

Program Type			Program Name	Nontraditional Gender
SEC	PS	AD		
01-04	01-07	01-10	Agriculture	Female
02-04	02-07	02-10	Business	Neither
04-04	04-07	04-10	Marketing	Neither
05-04	05-07	05-10	Health Science <i>Includes PLTW - Biomedical</i>	Male
06-04	06-07	06-10	Family Focused FCS	Male
07-04	07-07	07-10	Occupational FCS	Male
08-04	08-07	08-10	Trade & Industrial	Female
10-04			Technology & Engineering <i>Formerly PLTW - Engineering</i>	Female

A student whose primary field of study is Business or Marketing is not considered nontraditional for either gender.
