

## High School Math Accountability Guidance

For example:

	Student A	Student B	Student C	Student D	*Student E	
Middle School	6th	MAP	MAP	MAP	A1	
	7th	MAP	MAP	A1	GE	
	8th	MAP	A1	GE	A2	
High School	9th	Algebra I (A1)	GE- optional	**A2	**GE	*Submit plan for HS MA Accountability
	10th	Geometry (GE) - optional	**A2			LEA/Charter will be required to assess student in HS. Call DESE Quality Schools division for guidance.
	11th	Algebra II (A2)- optional				
	12th					

**Notes:**

MAP counts for MS building APR	A1 counts for the MS building APR (A1 supersedes MAP if both are given)	A1 counts for MS building APR GE counts for MS building APR	A1 counts for MS building APR A2 counts for MS building APR	A1 counts for MS building APR A2 counts for MS building APR
<b>A1 is the required EOC</b>	<b>**A2 is the required EOC</b>	<b>**A2 is the required EOC</b>	<b>**GE is the required EOC</b>	A2 counts for MS building APR
A1 counts for HS building APR	A2 counts for the HS building APR	A2 counts for HS building APR	GE counts for HS building APR	

- \*1) When the content of A1, GE, and A2 is taught and assessed prior to HS, the LEA/Charter must submit the Personalized Accelerated Math Plan for HS MA accountability for the student.
- \*\*2) Within the same LEA/Charter, if the A1 content is taught prior to grade 9, but the A1 EOC not given, the LEA/Charter must give the A1 EOC in HS (grade 9-12). A2 (or GE) cannot substitute for A1 unless A1 EOC was given prior to grade 9. However, if the student is a transfer in from a different LEA/Charter (or private, out of state, etc.), then A1 or A2 may be given for accountability. If A2 is given, LEA/Charter must use exception code (see below) for A1.
- 3) For any student above, the Achievement Level 4 report/chart ONLY pulls MAP data for 3-8 grades. EOC data is pulled by EOC Assessment, regardless of the student's grade when taken.
- 4) When an EOC is given prior to grade 9, the EOC score replaces the grade level MAP assessment. If the student scores below basic/basic, A1 may be retaken in HS for accountability purposes. For A+ purposes, see #5 below.
- 5) A+ Scholarship eligibility: Students are required to earn a score of proficient or advanced on the A1 EOC. When a student scores below basic/basic they may retake the A1 to gain A+ eligibility (or a higher level DESE approved EOC in mathematics. See the higher ed website for other options for A1 proficiency). The subsequent score will count for accountability (even if below basic/basic) unless the LEA/Charter requests the score be removed through the appeal process.
- 6) Courses do NOT have to be taught in the grade or sequence shown above, those are for illustrative purposes only.
- 7) Grades 9-12 are considered "High School" for EOC accountability, even in buildings with different grade span configurations.

EOC Exception Codes:

EOCEX2: Student received content out-of-state; in a private, parochial or home school.

EOCEX3: MAP-Alternate – Students identified by the IEP team received content without an alternate assessment available. Currently this is only applicable to Social Studies.

EOCEX4: Student took content in another public Missouri district, but was not assessed.
