

## **Introduction**

The Missouri Standards for School Librarians delineate performance expectations for professional 21st century school librarians in Missouri. As certified teachers, P-12 school librarians must demonstrate the knowledge, skills, attitudes and dispositions of two related yet distinct professional disciplines: education and youth services librarianship. School librarians create spaces where members of the school community\*, with their diverse backgrounds and lived experiences, come together to thrive and succeed as capable, confident learners. The Standards are grounded in the cornerstone documents of youth services librarianship, the *ALA/AASL Standards for Initial Preparation of School Librarians* (American Library Association/American Association of School Librarians, 2010), the *NBPTS Library Media Standards, 2nd Edition* (National Board for Professional Teaching Standards, 2011), *ALSC Competencies for Librarians Serving Children in Public Libraries* (Association for Library Service to Children, 2009) and *YALSA's Competencies for Librarians Serving Youth: Young Adults Deserve the Best* (Young Adult Library Services Association, 2010). **These Standards recognize that P-12 school librarians continuously develop knowledge, skills, attitudes and dispositions.** Therefore, the Missouri Standards for School Librarians employ a developmental sequence to define a continuum that describes how a school library professional matures and strengthens as a leader, information specialist, instructional partner, teacher, and program administrator. The order of the Standards should not be interpreted as an indicator of each Standard's importance in guiding professional practice.
