“What’s Your Plan – Exploring the 16 Career Clusters”

- LEAH: Well, thanks for joining us today on “What’s Your Plan?” We hope you’ve learned a lot and that you have a better idea of which Career Cluster you might be interested in exploring...
- CALEB: ... and what you can do now to start preparing for a career in that cluster.
- LEAH: If you’d like to know more, set a meeting with your school guidance counselor. Talk to your counselor and your parents about your career choices. See which classes you can take and activities you can do now to get going on your chosen career path.
- CALEB: Be sure to complete a personal plan of study, and consider your favorite Career Cluster when choosing elective courses, student organizations, and doing community service. Take the plan seriously, update it every year, and it will help you achieve your goals.
- LEAH: See what a career is all about by taking advantage of field trips with your school or on your own. Check out career fairs, apprenticeships or job shadowing.
- CALEB: Think I could find someone to let me shadow them for the day?
- LEAH: Anything’s possible.
