

# Direct Certification

**MOSIS Process for School Districts**

September 2015

# Agenda

- Prior Direct Certification Process
- Current Direct Certification Process
- Using the Current Process
- Accessing Direct Certification through MOSIS
- Direct Certification Reports

# Prior Direct Certification Process

- A list of eligible children based on their zip code was created and made available to Local Education Agencies (LEAs)
- This process was not efficient—it was a 43-step process
- An updated list of eligible children was made available to LEAs only 3 times per year-this list is still available if needed to compare to the current process

# Current Process

- A Federal Grant was awarded to assist with meeting the new USDA Requirement of a 95% direct certification rate
- Goal is to improve the direct certification percentage by making the process less burdensome
- Eligibility has been incorporated into MOSIS
- Allows more targeted delivery of eligibility since districts request eligibility status versus referencing a list
- Students without a match must still complete the school meals application form if they or their family believe they are eligible for free meals

# Using the Current Process

- Create a list of all students currently enrolled
- Upload file to the MOSIS Direct Certification Lookup
- Download Excel report listing eligible students in MOSIS
- Use report to directly certify the appropriate students and manually enroll the others
- Direct Certification Lookup is updated weekly! LEAs must run the report July, October and January each school year.
