The Missouri Department of Elementary and Secondary Education, in cooperation with the Missouri School Plant Managers Association, have scheduled five school facilities workshops for 2014. Each workshop will be in session a total of two days, eight hours per day.

In order to have adequate staff and instructional materials available, it is necessary that we know as near as possible the exact number of people from your district who will be attending a workshop. It is essential that the pre-enrollment form show the course in which your staff will be enrolled. Because of the funding requirements, we must have at least (10) persons enrolled in a class before it can be offered, Housekeeping, Maintenance and Repair, Heating-Ventilation-Air Conditioning, Grounds Keeping and Supervision of Support Services (*supervisory level people only*).

The attached form should be completed and returned as soon as possible to the appropriate workshop coordinator.
