

Column1	Grade Level	Comments	MO Resident ?	Relationship to Education?	Zip Code
The Number System	Grade 6	6.NS.B4 Add, "Justify a greatest common factor or least common multiple using area models." Rationale, using area models throughout the grades will make Algebra more accessible to more students because of the concrete connections. See page 11 for examples: http://tinyurl.com/prog2area			
The Number System	Grade 4	Directions were horrible!! The steps given did NOT match up with what the test-taker had to do...NOT 4th grade applicable...total disappointment!!!!	Yes	Educator	65059
The Number System	Grade 2	These are rigorous requirements, with no professional development and/or a viable curriculum. We are using NY Engage, and it is excellent, but our students are not ready for the rigor of the curriculum.	Yes	Educator	63901
