UPDATE

Welcome and Introductions

The September 21, 2017, state MoTEP meeting began with introductions. The history of MoTEP and how it came to be and the work it has accomplished was reviewed. This introduction ended with a review of the goals that were developed for a proposal back in spring 2017. These goals served as the starting point for the discussions of the meeting. Participants were broken into three separate subcommittees: PK-12 and EPP Partnerships, Data Sharing, and APR 1.5/2.0 Process.

Goal 1: PK-12 and EPP Partnerships

The EPP / PK-12 partnership subcommittee presented their updated action steps and outcomes to the full group. These included:

- Cooperating teachers and university supervisors training
- A rubric to be used to determine partnership effectiveness
- A survey to be used to determine the quality of teacher candidate support during the clinical experience
- Conference presentations
- Grow Your Own strategies

Goal 2: Data Sharing

The data sharing subcommittee presented their updated action steps and outcomes to the full group. These included:

- Two to four common data points across district evaluation systems
- MOUs for EPPs and PK-12
- Data from MOU agreements
- Process for extracting data from the NEE and MEES evaluation systems

Goal 3: APR 1.5 / 2.0 Process

The APR subcommittee presented their updated action steps and outcomes to the full group. These included:

- Public release of APR version 1.5
- Internal release of APR version 2.0
- Process to evaluate the goal's objectives
- Development of an "Items not Waived" checklist to provide contextual data
- Process to review and refine APR 2.0 to prepare it for public release
- Ongoing process to continually improve APR 2.0 when it is publically released

MoTEP Budget for 2017-2018

MoTEP participants discussed what funds would be needed to accomplish the action steps and outcomes of each of the goals. The group unanimously allocated the following:
