

Discover Nature Schools *Nature Unfolds* unit for Grades K-2

Crosswalk to the Missouri Learning Expectations

Missouri Learning Expectations addressed by Nature Unfolds activities. Correlation to a standard does not imply that one activity will fully meet the standard. The term "precursor" is used where an activity relates to the standard but needs to be extended or modified to address it adequately.

Kindergarten		Matter and its Interactions		Energy			Molecules to Organisms		Ecosystems		Heredity	Earth's Place in the Universe		Earth's Systems				Earth and Human Activity	
First Grade																			
Second Grade

197	Life Cycle Rummy																		

This crosswalk publication was created as a tool for teachers, curriculum coordinators, and school administrators to more effectively use Nature Unfolds lessons in their schools and classrooms. The Missouri Department of Conservation is grateful for the dedicated service of curriculum coordinators Meghan Aydelott and Melinda Troxel who coordinated efforts with the Conservation Department's St. Louis region education consultants.
