### Reminder:

**If your child is going to be late, absent or picked up early you must contact Maple Valley and the bus company.**

**Please call 816-437-3711 for MV.**

**Please call your bus contact number to notify the bus.**

### Nurse's Notes:

In order to help prevent the spread of illness at school, we need YOUR HELP. If your child has a fever, vomits, or has diarrhea during the evening or night, DO NOT send your child to school the next day. Often the symptoms return and the child will be sent home. In the meantime, he/she has exposed other students and the teachers to unwanted germs and viruses.

**When to return to school:**

Keep all children home for a full 24 hours after symptoms of illness have SUBSIDED.

Children sent home with a temperature of 100 or higher, or sent home due to vomiting or diarrhea must stay home the following day. Fevers must be gone for 24 hours WITHOUT the aid of medication (Tylenol, Motrin).

**Antibiotics:**

If children are prescribed an antibiotic (for strep, pink-eye, etc) they must take it for 24 hours before returning to school. A medication authorization form must be filled out by the child's doctor before antibiotics or any over the counter medications can be taken at school.
