

MO Commodity Expo Registration Form

PROCESSORS/BROKERS

The Commodity Expos are an opportunity for food service directors (FSD)/head cooks to meet with DESE – Food & Nutrition Services (FNS) and learn more about the USDA Donated Foods (DF) Program offered in Missouri. The Commodity Expos will be held **February 11-13, 2015**. Each Commodity Expo will consist of three sessions:

1. Roundtable Discussions
2. Informational Meeting/Presentation
3. Food Show/USDA Foods Packet Help Session

Processors/Brokers are encouraged to take advantage of the Roundtable Discussions. Three discussions, 12-15 minute visits, are assigned to each attendee. Each Roundtable will have approximately 5-8 attendees (depending on # of sign-ups) and a processor/broker as the 'lead' of the discussion. **If you would like to lead a Roundtable discussion, sign up below so we can schedule attendees to meet with you.**

An opportunity to showcase/sample approved products will occur during the food show portion of the Commodity Expo.

ONLY APPROVED ITEMS AVAILABLE THROUGH DESE – FNS MAY BE SAMPLED DURING THE COMMODITY EXPO.

Processors will be allowed a *maximum* of one table per commodity item (beef, pork, chicken, cheese, turkey, etc.) Processors must provide their own chafing dishes, heat source (sternos), serving utensils, and any sampling supplies needed. If electricity is needed, please indicate below. Processors are allowed to hand out product information including nutritional information, individual sheets of approved items, and business cards. ***No give-aways are allowed*** (examples: information about unapproved items, stuffed/squishy animals, key chains, pens, etc.) A contact for each location is listed below each Commodity Expo site should you need to arrange sending materials in advance.

Registration is FREE, but required. Deadline is February 6, 2015.

Indicate the Commodity Expo(s) you will attend (click the button next to each site attending).

Only complete table and electricity information ONCE for EACH processor.*

**Only applicable if multiple people will be attending a site for the same processor.*
