**DEPARTMENT GOAL NO. :**

All Missouri Students will graduate college and career ready.

**SUMMARY:**

The State Board of Education first established standards for the classification and accreditation of Missouri school districts in 1950. Over time, the classification process has been systematically revised and improved to reflect changing needs in our schools and the changing demands and expectations of citizens and school patrons.

This report will outline the revisions to the Comprehensive Guide to the Missouri School Improvement Program Scoring Guide as the result of the implementation of the new assessments as well as modifications to Standard 3 College and Career Readiness.

**PRESENTER(S):**

Dr. Chris Neale, Assistant Commissioner of the Office of Quality Schools, will participate in the presentation and discussion of this agenda item.
