

Administrative Memo

Date: March 23, 2012
To: Community College Deans
Area Career Center Directors
Comprehensive High School Career Education Contact
From: Sharon Hoge, Ph.D.
Assistant Commissioner
Subject: CCR-12-005 - Missouri Comprehensive Data System (MCDS) portal

I am pleased to inform you that Career Education Perkins reports are now available through the Missouri Comprehensive Data System (MCDS) portal. These reports are more easily accessible through the MCDS rather than through ePeGs and are available to the public through the College and Career Guided Inquiry section.

Each report has been designed for data downloading within each classification – Secondary, Postsecondary and Adult. The reports for each classification are also available in three forms – State, District and Consortium.

The MCDS can be accessed through the DESE website at <http://mcds.dese.mo.gov/guidedinquiry/Pages/Career-Education.aspx>.

If you have any specific questions regarding the new Perkins reports, please contact Connie O'Brien at (573) 751-3524 or connie.obrien@dese.mo.gov.
