

## Administrative Memo

Date: May 1, 2018

To: School Administrators, Career Technical Education (CTE)  
Directors/Administrators, High School Principals, School Counselors, and  
Community College/University CTE Deans/Directors

From: Blaine Henningsen, assistant commissioner

Subject: CCR-18-006 Update on Common Criteria and Quality Indicators

Due to unforeseen circumstances, the Tiered Monitoring System is not yet available to enter the Common Criteria and Quality Indicators for Career and Technical (CTE) Programs individual program evaluation rubrics. Our goal was to have the system up and operational by the end of March.

We will be working with the vendor to ensure the system is operational by the end of August so that it will be available to you by September 1, 2018. You will be notified via administrative memo and by webinar once the system is available for entering your program information.

If you have specific questions regarding the Common Criteria for Quality Indicators for CTE Programs, contact Dennis Harden at [dennis.harden@dese.mo.gov](mailto:dennis.harden@dese.mo.gov) or 573-751-3500.
