

Administrative Memo

Date: August 6, 2014
To: School Administrators
From: Ron Lankford, Deputy Commissioner
Subject: FAS-14-010 Summer School Attendance

It is imperative that school districts and Charter LEA's make sure that all summer school attendance is included in their August Core Data reporting cycle.

This information is critical to the development of the FY16 budget request for foundation formula funding. The more accurate the weighted average daily attendance by district, the more accurate the projected cost of the formula.

Thank you for your assistance.
