The English Language Proficiency (ELP) Assessments Guide is an overview of assessment testing specific to English learners (ELs) for the 2019-2020 year. This document serves as a high-level resource for contacts, responsibilities, questions, etc. The guide covers the assessments to be given by LEAs this year—the ACCESS ELP Assessment, the Kindergarten ACCESS ELP Assessment and the Alternate ACCESS – the ELP assessment for students with the most severe cognitive disabilities (students that do or would qualify for MAP-A).

ACCESS for ELLs is a secure large-scale English language proficiency assessment administered to students in Kindergarten through 12th grade identified as English learners (ELs). The assessment, given annually, allows districts to monitor students' progress in acquiring academic English.

WIDA Checklist
The WIDA checklist is guide for personnel involved in the administration of ACCESS for ELLs. The checklist highlights all tasks that need to be completed before, during, and after testing within a school or district and shows who typically completes those tasks in your state. Use this checklist to keep track of completed tasks. Each task is marked for either the District/School Test Coordinator or the Test Examiner. Districts may alter the list and make their own decisions on who is responsible for each task.

The checklist can be found at: https://dese.mo.gov/sites/default/files/asmt-el-access-checklist-1920.pdf
The WIDA Consortium is a non-profit group whose purpose is to promote educational success for ELs. WIDA advances academic language development and academic achievement for linguistically diverse students through high quality standards, assessments, research, and professional development for educators. WIDA also provides meaningful tools, training and information to educators working with ELs, which are anchored in research-based practices for serving these diverse learners. Missouri joined the WIDA consortium in 2010 in response to both wanting to improve the EL standards within the state and to help provide better service and assessment to a growing EL population.

- The WIDA Consortium currently consists of 35 states, the District of Columbia, the Northern Mariana Islands, the U.S. Virgin Islands, the Bureau of Indian Education and the Dept. of Defense.
- WIDA offers not just an ELP assessment, but a fully integrated, theoretically sound, research-based, comprehensive system, connected to learning standards, and supported by professional learning.
- The WIDA integrated system provides for shared understanding among administrators, ELD teachers, general education teachers, parents and students.
- WIDA offers support for member states with dedicated specialist teams in EL assessment, research and policy, professional learning, and client relations.
- WIDA professional learning builds state educators’ capacity to provide integrated content and language learning for ELs.
WIDA Website
https://wida.wisc.edu/

The WIDA website contains a wealth of diverse tools and resources for LEAs to use. Among these are the English Language Development (ELD) standards, currently used by thousands of educators to help set curricular goals, plan differentiated lessons and measure student language growth.

In addition, the Can DoDescriptors are a useful tool when working with general education teachers, students and parents to help show the students’ linguistic abilities and help set goals for language development.

WIDA AMS
http://wida-ams.us

The WIDA Assessment Management System (or WIDA AMS) is the interface to the administrative functions of the DRC INSIGHT Online system. WIDA AMS is used by Test Coordinators, Technology Coordinators and in some districts, Test Administrators.

In WIDA AMS, Test Coordinators can:
- Create users
- Assign permissions
- Upload students
- Assign Accommodations
- Edit student demographics
- Create Test Sessions
- Import students into Test Sessions
- Print Test Tickets
- Track student progress
- Download test reports
- Download test results

Who take the ACCESS assessments?

Students enrolled in a Missouri public or charter school in grades K-12 that have been identified as an English learner are required to take the ACCESS assessment.

Assessment Decision Matrix

The first decision to be made by LEAs is to determine which assessment the student should take. Please use the following decision matrix to determine which assessment each student will take. **NOTE:** There is no Kindergarten Alternate ACCESS. For those students you suspect would qualify for that assessment, mark them as NLP in Core Data and make a re-determination when they are in 1st grade.

1. Does the student qualify for MAP A (or for grades 1/2 would they)?
   - Yes: The student should take Alternate ACCESS
   - No: Move to next question

2. Is the student in Kindergarten?
   - Yes: The student should take the Kindergarten ACCESS
   - No: Move to next question

3. Does the student require a Paper, Large Print or Braille assessment as indicated in the IEP/504 plan?
   - Yes: The student should take the Paper, Large Print or Braille assessment as indicated in the IEP
   - No: Move to next question

4. Will the student level of exposure to technology have an impact on student performance?
   - Yes: The student should take the Paper assessment
   - No: The student should take the online assessment
Training
Training for the ACCESS assessments is done on the WIDA website. There are four training courses – one for each type of assessment. Test examiners are required to take complete the training courses each year.

ACCESS has two trainings – one for students taking the assessment online and one for those taking the entire assessment on paper. It is not required to take the Paper-Based training for students in grades 1-3 that will take the writing domain on paper and the rest of the assessment online.

There are also trainings for Kindergarten ACCESS and Alternate ACCESS.

Test examiners are only required to take the training course for the assessments that they are giving.

District Test Coordinators or EL Coordinators should be sure to track the training status of all test examiners. This can be done on the User Account Management & Training Status Lookup screen.

Beyond training, the only requirement to give the ACCESS is that the test administrator must be a district employee that, at a minimum, meets the requirements of a paraprofessional.
Timing Guidelines/Scheduling

Please note that none of the ACCESS assessments are timed, so if a student is continuing to make progress, please allow them to finish. Additionally, students with IEPs may have an accommodation that allows them extended time, above and beyond those students without IEPs.

<td>Administered Individually</td>
<td>Administered Individually</td>
</tr>
</tbody>
</table>

Testing Order

ACCESS
For ACCESS Online, students must first take the Listening and Reading tests because their performance on those domains determines their placement on the remaining domains (Speaking and Writing). WIDA recommends that students take the Listening test first, followed by the Reading test. Then, students may take Speaking and Writing in either order. ACCESS Paper can be administered in any order.

Kindergarten ACCESS
The Kindergarten ACCESS test is meant to be administered in one session. However, the test may be administered over two sessions, but the break must occur between the narrative (A-C) and expository (D-F) sections of the test, and the break may not last more than two consecutive school days. Short breaks are allowed, and in situations when the testing session absolutely must be interrupted (for example, by lunch or a fire drill), it is permissible to stop administration and resume at a later time. WIDA emphasizes that this should only occur in cases of emergency or extreme inconvenience, and the testing session should be resumed as quickly as possible.

Alternate ACCESS
WIDA recommends that each test section be administered in a separate testing session. The different test sections can be administered on different days, with no minimum or maximum break between administrations, as long as the entire assessment is administered within the testing window.
Accommodations
WIDA provides guidelines for appropriate supports for students on the ACCESS suite of assessments. The WIDA Accessibility and Accommodations guide provides information about support and targeted accommodations for students with IEP/504 plans. These supports are intended to increase the accessibility for the assessments for all ELs. In order to be available to ELLs on the day of testing, some accommodations must be selected in the WIDA Assessment Management System (AMS) prior to testing.

Student Upload
There are some training pieces and a training module from WIDA providing instructions on how districts may upload a pre-code file directly to WIDA. Missouri is NOT participating in this process. Missouri districts submit a pre-code file to the stat and the state submits one file to the vendor.

Districts should participate in the pre-code process run through DESE. The pre-code process works in the same way as pre-coding for other state assessments. The pre-code window runs from 9/30/19 – 10/31/19. For more information on the pre-code process, please visit http://dese.mo.gov/data-system-management/core-datamosis/timelines#assessprecode. If you have questions about the pre-code process, please contact the office of Data System Management at 573-522-3207 or dsm@dese.mo.gov.

By using the pre-code process, students taking a paper based assessment will receive a student label and those taking an online assessment will automatically be entered into the WIDA AMS Administration site. To upload students to the system after the pre-code process deadline, you can add student individually or in batches in WIDA-AMS by going to Student Management>Manage Students. Complete instructions can be found in the WIDA-AMS guide.
Materials

No matter which assessment a student is taking, the district will need to enter the amount of students testing on the WIDA-AMS.us site. Once signed in, go to Materials>Materials Ordering. You will see a screen that looks like the one below. Districts will need to fill in how many students are taking each assessment in order to get the correct amount of materials shipped to them.

**KINDERGARTEN** - Input the number of students taking the Kindergarten ACCESS

**ONLINE** - Input the number of students at each grade cluster taking the Online ACCESS – This includes students in grades 1-3 taking the writing portion in a paper book

**PAPER** - Input the number of students at each grade cluster by tier (A or B/C) taking the Paper ACCESS – DO NOT include students in grades 1-3 taking writing in a paper book

**ALTERNATE** - Input the number of students at each grade cluster taking the Alternate ACCESS

**CUSTOMIZED** - Input the number of students at each grade cluster taking Large Print or Braille
ACCESS for ELLs

ACCESS for ELLs is a secure large-scale English language proficiency assessment administered to students who have been identified as English learners. It is given annually in WIDA Consortium member states to monitor students' progress in acquiring academic English.

ACCESS is aligned with the WIDA English Language Development Standards and assesses each of the four language domains of Listening, Speaking, Reading, and Writing.

Purpose and Use

- Helps students and families understand students’ current level of English language proficiency along the developmental continuum.
- Serves as one of multiple measures used to determine whether students are prepared to exit English language support programs.
- Generates information that assists in determining whether ELLs have attained the language proficiency needed to participate meaningfully in content area classrooms without program support.
- Provides teachers with information they can subsequently use to enhance instruction and learning in programs for their English language learners.
- Provides districts with information that will help them evaluate the effectiveness of their ESL/bilingual programs.
- Meets, and exceeds, federal requirements for the monitoring and reporting of ELLs' progress toward English language proficiency.

The tasks on the summative assessment will assess the language students need to process or produce in various school contexts. Each assessment item and task will target at least one of the five WIDA ELD Standards:
Computer v Paper/Pencil

Students in grades 1-3 will take the speaking, listening and reading sections online and the writing section via paper. Students in grades 4-12 will take the entire assessment online. There are two exceptions to this: students with an IEP/504 Plan that says they must take a paper/pencil assessment or those students whose level of exposure to technology would not allow them.

Mixed-mode testing is not allowed, thus a student must take all domains in which they will participate either on the computer or paper-based (students in grades 1-3 taking writing via paper does not constitute mixed mode testing).

Technology

Data Recognition Corporation, or DRC, provides the ACCESS technology platform. It consists of the following components:

WIDA Assessment Management System (WIDA AMS): A web-based interface to the administrative functions for the online assessment system. Used by Test Coordinators to create student records and test sessions and to help manage or monitor their testing environment. Used by Technology Coordinators to download the next two components from WIDA AMS.

DRC INSIGHT: A secure browser that delivers assessments online for all language domains and grade levels. The INSIGHT platform must be installed on each testing device to communicate with the DRC server to provide test questions to the test taker and to send responses to the DRC server.

Central Office Services (COS): The testing vendor, Data Recognition Corporation (DRC) has transitioned all programs from the Testing Site Manager (TSM) to a new site management software called Central Office Services (COS) Service Device. This application provides content hosting and a software toolbox to help districts plan, configure, and manage the online testing environment. LEAs should be directed to use Volume III: Central Office Services (COS) of the DRC INSIGHT Technology User Guide for technical documentation on setting up and configuring the COS Service Device. The content hosted from Central Office Services will be the same as the content hosted from the TSM.
Kindergarten ACCESS

The test is an individually-administered, adaptive assessment designed to take an average of 45 minutes per student. It is based on the WIDA English Language Proficiency Standards that form the core of the WIDA Consortium's approach to instructing and assessing English language learners.

Kindergarten ACCESS for ELLs test items are written from the model performance indicators of WIDA's five English Language Development (ELD) standards – Social & Instructional Language, Language of Language Arts, Language of Mathematics, Language of Science, Language of Social Studies.

The Kindergarten ACCESS assessment is:
- Not tiered; all students take the same test
- All domains (Speaking, Listening, Reading, Writing) are tested twice, once within the expository section and once within the narrative section
- All sections are adaptive, meaning items are presented until the student reaches his/her performance "ceiling"
- Scored locally by the Test Administrator
- Helps students and families understand students’ current level of English language proficiency along the developmental continuum.
- Serves as one of multiple measures used to determine whether students are prepared to exit English language support programs.
- Generates information that assists in determining whether ELLs have attained the language proficiency needed to participate meaningfully in content area classrooms without program support.
- Provides teachers with information they can subsequently use to enhance instruction and learning in programs for their English language learners.
- Provides districts with information that will help them evaluate the effectiveness of their ESL/bilingual programs.

Alternate ACCESS

Alternate ACCESS, is an assessment of English language proficiency for students in grades 1 – 12 who are classified as English language learners (ELLs) and have significant cognitive disabilities (those who do or would qualify for MAP-A) that prevent their meaningful participation in the ACCESS assessment. The assessment is based on Alternate Model Performance Indicators (AMPs), which provide expectations of what students should be able to process and produce at a given Alternate ELP level.

Alternate ACCESS provides students with additional opportunities to demonstrate their English language proficiency through scripted cues in the Listening and Readings Sections and auxiliary questions in the Speaking Section. It also includes modeled tasks in the Writing Section to allow students to observe the test administrator perform the task before trying it. The Alternate ACCESS for ELLs is an individually administered paper and pencil test. All sections of the assessment are scored locally by the test administrator.
Data Validation
Data validation is a process that provides the opportunity to review student test records, identify records that could cause errors in the data and on score reports and make corrective actions. These errors could be in demographic information, accommodations or do not score codes.

The Pre-Data Validation process is designed to identify student demographic, accommodation, and test result records that could potentially contain errors, as well as provide the opportunity for corrective action before reporting. After the close of your Data Validation Window, districts/schools WILL NOT have another opportunity to edit student data prior to reports being printed/posted to WIDA AMS.

Similar to Pre-Data Validation, the Post-Data Validation takes place the after you have received your results. Any changes made during this window will appear in the revised data file you will receive. While you will not receive new printed student reports, you will have the ability to print these yourself through WIDA AMS.

Score Reports
Individual Student Reports, Student Roster Reports, and School and District Frequency Reports are shipped to testing sites by DRC and are available for download in WIDA AMS.

Individual Student Report – shows scores for each language domain (Listening, Reading, Speaking, Writing), composite scores (combining one or more domain scores, such as Listening and Speaking scores to calculate Oral Language) and give brief descriptions of what students at each proficiency level are typically able to do
Student Roster Report – shows domain and composite scores for all the students in a single school and grade
School Frequency Report – shows the number and percent of students tested at a school who attained each proficiency level with a separate report generated for each grade level
District Frequency Report – shows the number and percent of students tested within a district who attained each proficiency level. A separate report is generated for each grade level

WIDA provides a number of resources for districts to use to interpret the score reports, parent handouts and guides to answer basic questions and explain information for parents/guardians. Some of these are available in multiple languages. More information can be found on the WIDA Website.

Reclassification
In March of 2017, a team of dedicated professionals from around the state, met to revise Missouri’s entry and exit procedures for English learners. In August 2017, Missouri published Identifying and Reclassifying English Learners: Guidance on Missouri’s Entry and Exit Criteria. Please see that document starting on page 6 for information about reclassification. [https://dese.mo.gov/sites/default/files/curr-eld-entry-exit-criteria.pdf](https://dese.mo.gov/sites/default/files/curr-eld-entry-exit-criteria.pdf)
