

Information Needed to Include Students with Disabilities

You will enter the following information for each sampled student classified as a **student with disability**.

- The IDEA category that best describes the student's disability. The following categories are used by the Individual with Disabilities Education Act (IDEA).
 - Specific learning disability
 - Hearing impairment/deafness
 - Visual impairment/blindness
 - Speech or language impairment
 - Intellectual disability
 - Emotional disturbance
 - Orthopedic impairment
 - Traumatic brain injury
 - Autism
 - Development delay (age 9 or younger)
 - Other health impairment (specify)
- The degree of each student's disability.
 - Mild
 - Moderate
 - Profound/Severe
- Grade-level performance for the subject to be assessed.
 - At or above grade level
 - One year below grade level
 - Two or more years below grade level
- How is the student assessed on the state assessment? If your state does not offer a state assessment, use classroom assessments as a reference point.
 - With accommodations
 - Without accommodations
 - With an alternate assessment, etc.
- Accommodations that each student typically receives.
