

## **Outstanding Questions**

1. Are the standards listed as Spring 2016 the current standards?
2. Are we to assume that the Life Science Standards are the ones meant to be taught in Biology or will there be Physical Science, Earth, etc.?
3. In what order are Physical Science and Biology taught?
4. Where is Inquiry/ Nature of Science on the new standard set?
5. On the sample test, PE's occur as session 2 and are related back to Nature of Science. In new test, will PE's be distributed across?
6. Is each item worth 1 point or are PE's weighted?
7. Are the 4 categories the reporting categories?
8. Where are engineering standards aligning and are they intended to be assessed?
9. Why are some categories presented that contain no content? Eg. Life Science 1.D, 2.D
10. Will point values be the same as previous tests- 55 points?
11. Does a crosswalk exist or are we to create it?
12. The majority of the former test hovers around DOK 2, will this be mirrored in the new tests?
