

ENGLISH I

Content Strand	Target # Points	Point Range*	Target % Total Points	Min Emphasis	Max Emphasis
1. Develop and apply skills and strategies to the reading process	15	13-17	38%	33%	43%
2. Develop and apply skills and strategies to comprehend, analyze and evaluate fiction, poetry and drama	12	10-14	30%	25%	35%
3. Develop and apply skills and strategies to comprehend, analyze and evaluate nonfiction	13	11-15	32%	28%	38%
Totals:	40		100%		

Note: Total score points for each content strand may vary depending on which passages are selected for a particular administration. The percentage of total score points from each content strand (Emphasis) will fall within the blueprint range described above.

**The minimum number of points in each strand will be 8.*

This blueprint was built under the following assumptions:

1. The reading passages will generally be balanced between non-fiction and fiction. A slight imbalance may occur if an odd number of passages appear on the operational test.
2. Content Strand 1 has a larger percentage of total points because this strand can be assessed using both fiction and non-fiction passages.
3. It is recommended that there be no standalone ELA items on the operational tests. Since writing prompts are not a part of English I development, and the minimum number of points in each strand is 8, this would mean that 8/40 items, 20% of the test, would be aligned to Writing 2.E, a strand that has only 3 CLEs.

Note: Total score points for the operational tests may vary depending on which performance event prompts are selected for a particular administration. Regardless of the total score points on a particular operational test, the percentage of total score points from each content strand (Emphasis) will fall within the blueprint range described above.

This blueprint was built under the following assumptions:

1. The operational test will be composed of one session. This session will have forty (40) 1-point multiple choice items.
2. GLEs appearing in both Strand 3 and either Strands 2, 4, or 5 will be reported under Strands 2, 4, or 5.

This blueprint was built under the following assumptions:

1. The operational test will be composed of one session. This session will have forty (40) 1-point multiple choice items.
2. All assessable GLEs will be reported under Strand 3.
3. If repeated GLEs from Strands 2, 4, and 5 are reported under Strand 3, data cannot be disaggregated by content area (i.e., Government, Economics, and Geography).
