

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

<p>UNIT DESCRIPTION: Skills for School Success</p> <p>This unit is designed to teach students the essential skills needed to become successful learners. Lesson one teaches basic body skills such as eyes on teacher, hands to yourself, raise your hand when you want to speak, and crisscross legs. Lesson two teaches such skills as taking turns, communicating, questioning, and participating.</p>		<p>SUGGESTED UNIT TIMELINE: 2 Lessons</p> <p>CLASS PERIOD (min.): 30 minutes each</p>				
<p>ESSENTIAL QUESTIONS:</p> <p>1. What does it look like to be a successful learner? 2. What happens when we don't do what is expected?</p>
