Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self-efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

- Interactive Instruction (Think, Pair, Share; Cooperative Learning)

Unit Summative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE. Assessment can be question answer, performance activity, etc.

Lesson #1: Performance Task: Students will demonstrate their understanding of basic body skills by successfully performing actions written in visual format on flash cards presented by the counselor.

Lesson #2: Performance Task: Students will demonstrate taking turns, communicating, questioning, and participating by playing the *Mystery Envelope Game*.

Brief Summary of Unit:

This unit is designed to teach students the essential skills needed to become successful learners. Lesson one teaches basic body skills such as eyes on teacher, hands to yourself, raise your hand when you want to speak, and crisscross legs. Lesson two teaches such skills as taking turns, communicating, questioning, and participating.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Lesson Preparation

Essential Questions:

What does it look like to be a successful learner?

Engagement (Hook):

Let's sing *London Bridge is Falling Down*. (Counselor leads students in singing.) Today we will learn new words to this song.

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:
<p>1. Counselor displays the flash cards for students to reference during teaching of song.</p>	<p>1. Students look at flash card pictures.</p>
<p>2. Counselor teaches students the <i>Body Basics</i> song. Make up actions for each part of song and use actions while singing. (Eyes on teacher could be making circles with finger and thumb and holding them up to eyes like glasses; Hands to self could be placing hands in lap; Crisscrossed legs could be rhythmically patting hands on knees with legs in crisscrossed position; and raise your hand and wait could be hand raised, etc.)</p>	<p>2. Students learn song, and sing. (Students perform actions for each part of song.)</p>
<p>3. When students are able to perform song independently, counselor places partnering bracelets on students while they continue to sing.</p>	<p>3. Students sing while teacher is placing bracelets on their wrists.</p>

<p>4. Counselor instructs the students to find their partner, and sit with that partner. Students partner themselves by matching symbol bracelets.</p> <p>For example, students with stars on bracelets partner up and students with circles on bracelets partner up. For example, one partner will have a large symbol of a star and the matching student will have a small symbol of a star. Students will find their partners by matching symbols. After completion of flash card set, the students will switch roles.</p> <p>5. Counselor passes out the flash cards. (One set for each pair of students.)</p> <p>6. Teacher says, “Hold up the flash card titled <i>Eyes on Teacher When She Talks</i>. What do we look like when we remember eyes on teacher?”</p> <p>7. Counselor proceeds in the same manner with subsequent cards, saying, “What does ‘hands to self’ look like? What does ‘raise your hand’ look like? What do ‘crisscrossed legs’ look like?”</p> <p>8. Counselor instructs student with larger symbol to pass the flash cards to partner with smaller symbol. Repeat process outlined above (steps 6-8).</p> <p>9. Counselor collects the cards at the end of the activity and instructs the students to return to group gathering area.</p> <p>10. Counselor repeats the process holding flash cards for entire group to demonstrate simultaneously. Counselor records number of students with correct response to cards</p>	<p>4. Students sit with (bracelet) partner.</p> <p>5. Student with larger symbol holds the flash cards. The student with the larger symbol will quiz the student with the smaller symbol first. The student will act out the flash card (using the actions in the song) for a correct response.</p> <p>6. Students demonstrate their knowledge of what eyes on teacher looks like by looking at the teacher and doing the action learned in song.</p> <p>7. Students demonstrate each flash card in turn, by doing the actions learned in the song for each flash card.</p> <p>8. Students repeat process with other partner holding cards.</p> <p>9. Teacher Follow-Up Activities

1. Students may color flash card pages and they can be used to repeat the flash card game or can be displayed in the classroom as a reminder of the skills of a successful learner.
2. Students may continue to sing the *Body Basics* song for morning openings with their teacher.
3. Students might choose to take the flash cards home in order to practice *Body Basics* at the supper table.
4. The teacher may also want to teach the group a *Line Basics* song to help students walk in the hallways appropriately. Using the same tune, write words that would instruct the students the appropriate skills for walking in the hall; lining up for lunch; etc.

Lesson Measurable Learning Objectives:

The student will demonstrate skills such as taking turns, asking questions, and participating at least once during a game.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE. Assessment can be question answer, performance activity, etc.

Students will demonstrate taking turns, communicating, asking questions, and participating by playing the *Mystery Envelope Game*.

Lesson Preparation

Essential Questions:

What happens when a student doesn't do what is expected of them at school?

Engagement (Hook):

“Today we are going to play the game *Twenty Questions*.” Counselor leads class in a quick game of 20 Questions. At completion of game, counselor will tell students “now we will play a different kind of guessing game.”

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:
<p>1. Counselor will instruct the students to sit next to partners. Partnering will be accomplished as in lesson 1, by using partnering bracelets.</p> <p>2. Counselor will instruct students on how to play the <i>Mystery Envelope Game</i> by demonstrating the game with a sample pair of students. (The <i>Mystery Envelope Game</i> is similar to the familiar game <i>Twenty Questions</i>). The counselor can determine what pictures to use during the game or select his or her own pictures. Some of the pictures provided may be too advanced for some groups.</p> <p>3. Counselor will say, “Students, we are going to play the <i>Mystery Envelope Game</i>. I have given (name of player #1) an envelope. It</p>	<p>1. Students will sit next to their partners forming a circle arrangement.</p> <p>2. A selected student pair will model teacher directions for the rest of the pairs to observe.</p> <p>3. Students will offer some ideas about what questions might help the player guess what is in the envelope.</p>

<p>has a picture of something inside. This other player’s job (student #2) is to guess what that something is. The player can ask questions that will help him guess.</p> <p>Students, what kinds of questions do you think would help this player?” (The counselor can use these responses to further teach the students which types of questions are more helpful than others.) Some students may also need to be taught the difference between a question and a statement.</p> <p>4. The counselor will teach the students some possible questions that will help while playing the game.</p> <p>Is it alive? Is it an animal? What color is it? Can you eat it? Is it big or small?</p> <p>5. In order to keep the rest of the class engaged during the demonstration, the counselor will often ask the class for suggested questions. “Students, can you think of a good question to ask?”</p> <p>6. The counselor will continue this process with subsequent pairs one at a time in order to demonstrate how the game is played. The counselor will continue practicing (for the entire class’s benefit) with student pairs until it is obvious that the class understands how to play the game.</p> <p>7. At the point in which the students are able to work independently in pairs, the counselor will instruct the students to play the game independently.</p> <p>The counselor will monitor pairs and watch for students who have finished an envelope. As students raise their hands to tell the counselor they have finished with an envelope, the counselor will give them another envelope that contains a different</p>	<p>(Students will offer questions that are helpful and will also offer questions that are less helpful in ascertaining the answer.)</p> <p>4. The student pair that the counselor is using to model the game will demonstrate the questioning by using the teacher’s suggested questions.</p> <p>5. Students use the counselor’s questions as well as the class’s suggested questions to continue playing the guessing game until the picture or object has been guessed correctly.</p> <p>6. Students continue to play the game a pair at a time with the counselor’s help and the class’s help until it is clear that pairs will be able to play the game independent of the counselor’s help.</p> <p>7. Student pairs play the game independently. (Students will raise their hands when they have finished an envelope so that the teacher can hand them another envelope in order that practice may continue.)</p>

mystery object.	
8. At any point after the students have started playing the game in pairs, the counselor may assess each student using the scoring rubric.	8. Student pairs continue to play the game independently.

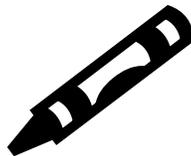

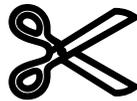

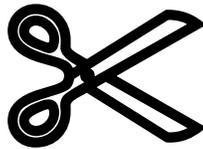

Teacher Follow-Up Activities

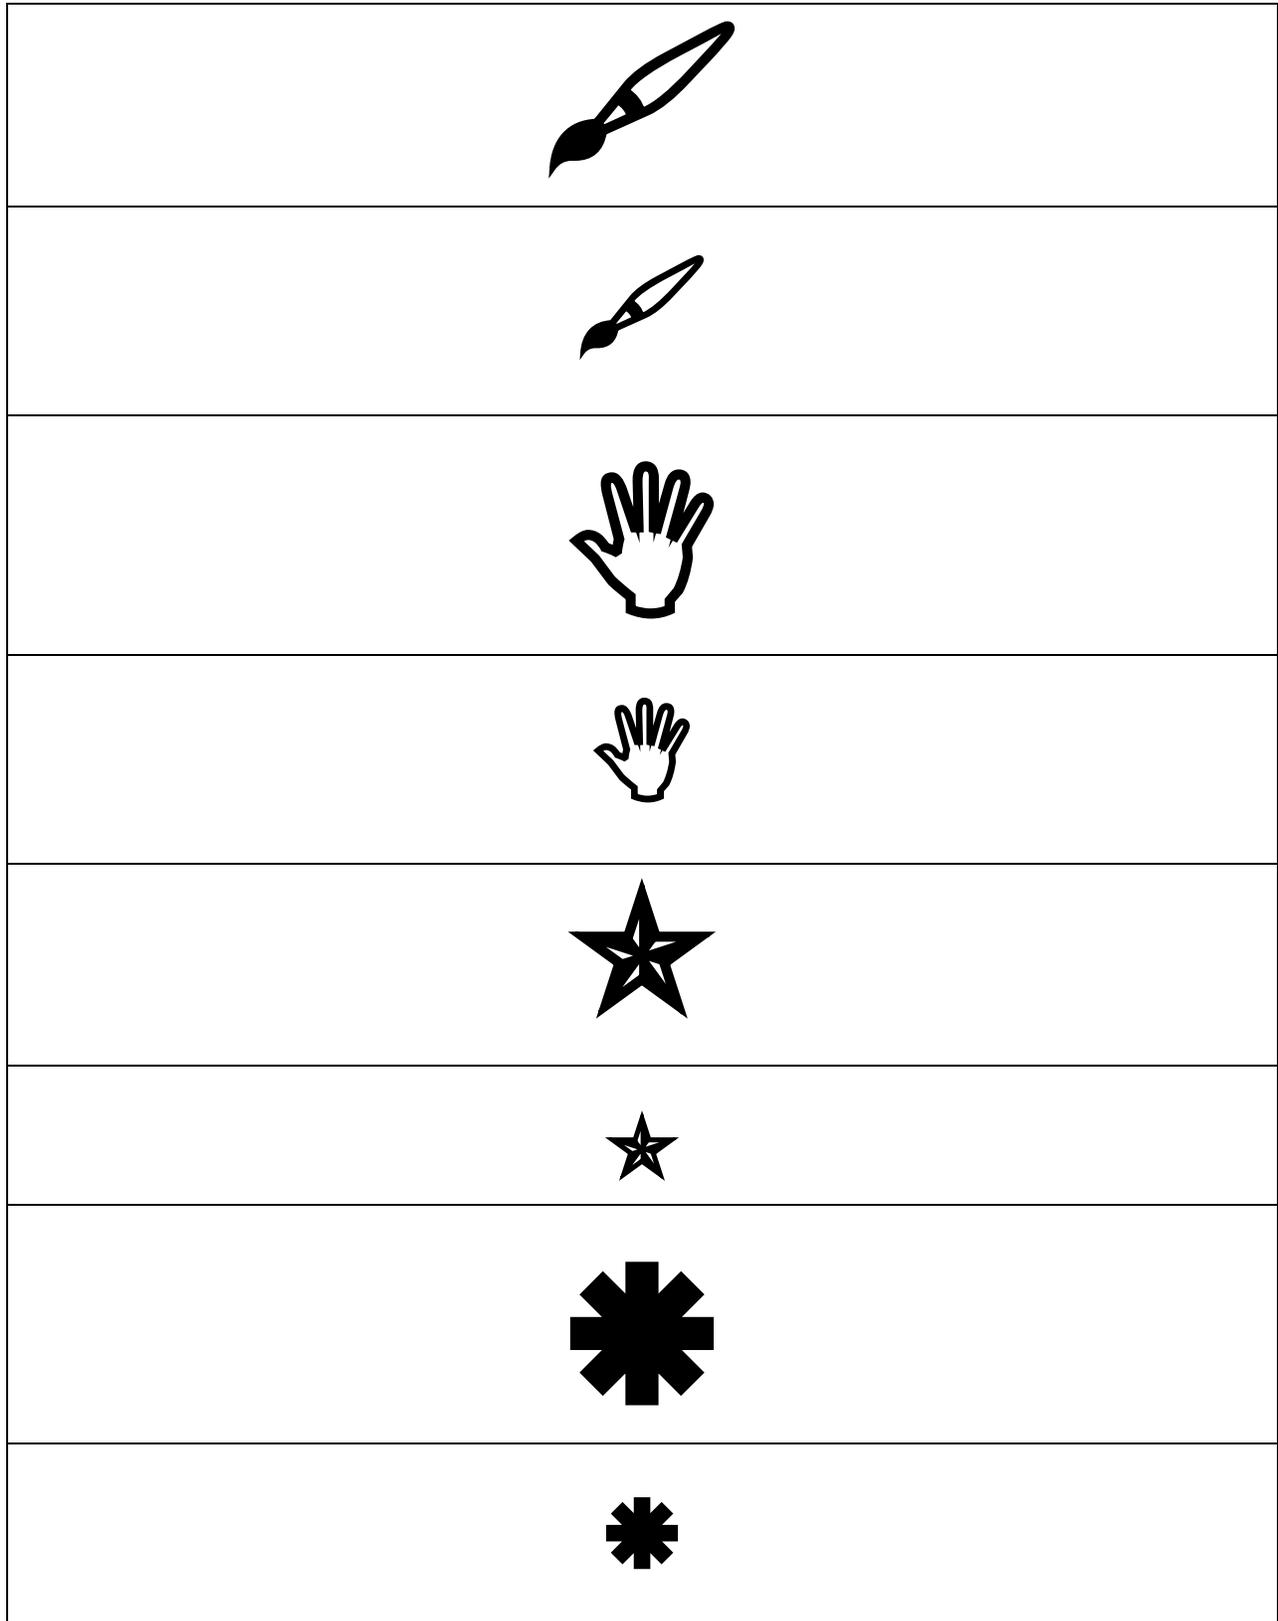

1. Students may take home an activity sheet with pictures on it that they can cut apart, and place in mystery envelope at home in order to continue practicing the questioning and communication skills. Tell the students they can also play this game with real objects from home.
2. Teacher may continue to play *Mystery Envelope Game* with students throughout the year. The teacher may also choose to use objects found in the room to help the students with orientation of where certain materials are located in the room, since it is the beginning of the year and students are becoming familiar with the contents of the classroom.

Turn Taking Skills – A (+) response would indicate students demonstrating the ability to pass materials in a turn-taking manner and share conversation in a turn-taking manner as well as being able to play the role of questioner and the listener appropriately. (This also re-teaches the concepts from lesson one of: hands to self, taking turns listening, eyes on partner when partner speaks, and crisscross legs.)

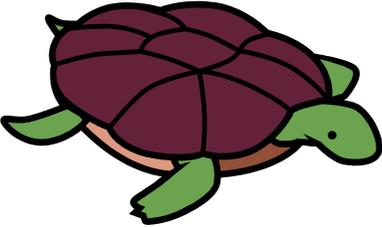

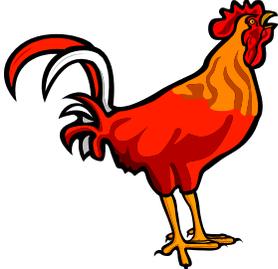

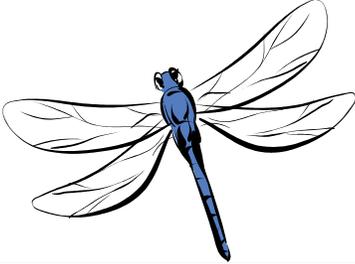

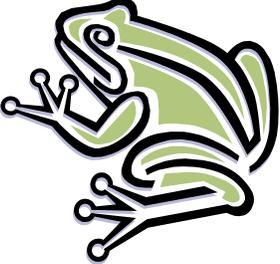

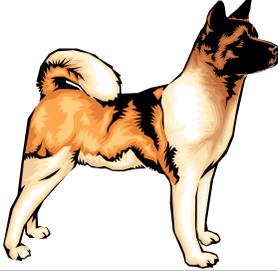

Questioning Skills – A (+) response would indicate the ability to ask effective, relevant questions that are successful in identifying the object.

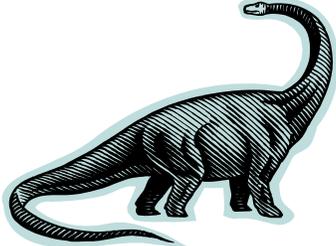

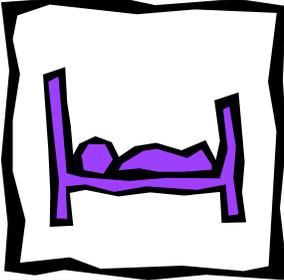

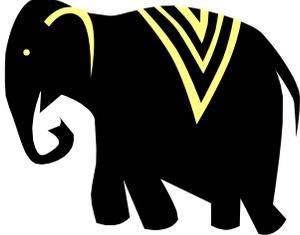

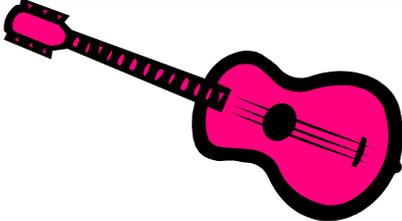

Participation Skills – A (+) response would indicate demonstrating all the above, as well as on-task behaviors.

DIRECTIONS: Cut apart the pictures on this page. Place pictures in an envelope labeled *Mystery Envelope*. One person draws a card out of the envelope without showing it to their partner. The partner's job is to ask questions (as you would when playing *Twenty Questions*), and try to figure out the picture that is on the card.

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

Unit Essential Questions:

How can goals be useful?

Unit Measurable Learning Objectives:

The student will identify strategies for goal setting and planning.

Unit Instructional Strategies/Instructional Activities:

- Direct (Compare & Contrast; Guided & Shared-Reading, Listening, Viewing, Thinking)
- Indirect (Problem Solving; Reflective Discussion; Concept Formation)
- Experiential
- Independent Study
- Interactive Instruction (Brainstorming; Discussion)

Unit Summative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE. Assessment can be question answer, performance activity, etc.

Students will identify strategies for goal setting and planning.

Brief Summary of Unit:

This unit is designed to teach students basic goal-setting skills needed to become successful learners. Lesson one teaches the student to identify strategies for goal-setting and planning for accomplishing goals in terms of five strategies: 1) Set a goal and make a plan on paper; 2) Tell someone about your plan and get that person’s help to monitor your progress; 3) Put the plan into action-practice; 4) Reward small steps; 5) Revise your plan if it is not working; 6) Keep working until you’ve accomplished the goal.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Demonstrate the skills needed to be a successful learner.

Assessment can be question answer, performance activity, etc.

The student will identify strategies for goal setting and planning.

Lesson Preparation

Essential Questions:

How can goals be useful?

Engagement (Hook):

“Have you ever heard the expression “talk is cheap,” or “put your money where your mouth is?” Do you know the name of the famous story that tells about a tortoise that asked a rabbit to put his money where his mouth was? That story is called *The Tortoise and the Hare.*”

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:
<ol style="list-style-type: none"> 1. Counselor will read the story, The Tortoise and the Hare, to the students. 2. Counselor will ask the following discussion questions: <ol style="list-style-type: none"> a. Have you ever decided that you wanted to do something that might take a lot of time and practice? You may have said to yourself, “I want to ride my bike by the time school starts.” We call that setting a goal. b. What was the goal of the Tortoise in the story? What was the goal of the Hare in the story? It sounds to me as if you are saying that they both had the same goal. c. Why do you think the Tortoise accomplished his goal and the Hare did not? d. Yes. That’s right. Do you think the Hare had a plan to win the race? Do you think he practiced for the race? e. Do you think the Tortoise had a plan for the race? What do you think his plan was? 	<ol style="list-style-type: none"> 1. Students will listen to the story and look at the pictures. 2. Students might say, “To win the race.” Students might say, “To win the race.” c. Students might say because the Hare stopped before the race was over. d. The students might say, “No.” e. The students might say, “Slow and steady wins the race.”

<p>f. If you were planning on winning a race, what would your plan be? How would you plan to accomplish your goal of winning the race?</p> <p>5. The counselor asks students to brainstorm strategies that helped the Tortoise accomplish his goal. The counselor will write the strategies on chart paper and give the strategies sheet to the teacher to reinforce in the classroom.</p> <p>6. The counselor and students will review the concept of goal setting and share the key points of the discussion. During the next lesson students will complete the <i>Talk is Cheap</i> Activity Sheet.</p>	<p>f. The students might say, “I’d get a lot of sleep, and eat my breakfast, and practice running everyday.”</p> <p>5. The students will brainstorm ideas.</p> <p>6. The students will participate in the review of discussion.</p>

Lesson Preparation

Essential Questions:

How can goals be useful?

Engagement (Hook):

Review the expression “talk is cheap,” or “put your money where your mouth is?” The counselor shows the book *The Tortoise and the Hare*, which was read the week before. The counselor briefly reviews the story with the students.

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:

Teacher Follow-Up Activities

Teacher may continue to use the goal-setting vocabulary introduced by the counselor in cross-curriculum settings such as in a spelling list, or in a writing assignment.

The teacher may allow the students the time and resources to create a list of famous people and the goals that they accomplished.

Counselor reflection notes (completed after the lesson)

Talk is Cheap...

But Setting a Goal and Following a Plan will be Richly Rewarded

DIRECTIONS: Color the square green (Tortoise Color) if it describes a good strategy for Setting a Goal or Following a Plan to accomplish a goal. Color the square brown (Hare/Rabbit Color) if it describes a behavior that does not involve goal setting or following a plan to accomplish a goal.

Set a goal and make a plan on paper.	1. This animal wrote down what time everyday he would stretch and exercise.	7. This animal wrote down the healthy food he would eat everyday.	13. This animal did not set any goal or write down any plan.
Tell someone about your plan and get that person's help.	2. This animal asked his friend squirrel to run the racetrack to look for problems.	8. This animal did not ask anyone to help him plan.	14. This animal asked duck to reward him every time he got one second faster.
Put the plan into action-practice.	3. This animal got to bed every night at 8:00 just as he had planned.	9. This animal talked about lifting weights for the race but never did.	15. This animal ate a healthy, balanced diet that he had planned with his mother.
Reward small steps.	4. This animal met his short-term goal of getting one second faster each day and rewarded himself with a cookie.	10. This animal didn't prepare in small steps, he didn't think he needed to improve in any way.	16. This animal met his short-term goal of getting to bed on time each night and bought himself two new pairs of socks.
Revise your plan if it is not working.	5. This animal found out that running too fast, tired him out to soon, and he decided slow and steady wins the race.	11. This animal found out that eating chocolate before bedtime kept him awake, so he stopped.	17. This animal kept making the same mistakes every time and didn't learn from them.
Don't quit until you've accomplished the goal.	6. This animal went to sleep before the job was done.	12. This animal never stopped following his plan until the goal was accomplished.	18. This animal didn't think he needed to make a plan to meet his goal.

My Learning Goal is . . .

One strategy for setting a goal and following a plan to accomplish that goal is . . .

Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

UNIT DESCRIPTION: Goal Setting		SUGGESTED UNIT TIMELINE: 2 Lessons				
<p>This unit is designed to teach students basic goal-setting skills needed to become successful learners. Lesson one teaches the student to identify strategies for goal-setting and planning for accomplishing goals in terms of five strategies: 1) Set a goal and make a plan on paper; 2) Tell someone about your plan and get that person’s help to monitor your progress; 3) Put the plan into action-practice; 4) Reward small steps; 5) Revise your plan if it is not working; 6) Keep working until you’ve accomplished the goal.</p>		CLASS PERIOD (min.): 30 minutes each

Lesson Titles:	
Lesson 1: Goal Setting and Self-Assessment	
Materials/Special preparations Required:	
5 consecutive spelling test grades for each student	
<i>Test Score Goal Sheet</i>	
<i>Test Scores Bar Graph Sheet</i>	
Pencil and crayons for each child	
Scale and materials to put on it (rocks & cotton balls)	
Lesson 2: Reflection on Educational Goal Setting and Self-Assessment	
Materials/Special preparations Required:	
Spelling or other content area score from their last test	
Test Score Analysis Sheet	
Each student's <i>Test Score Goal Sheet</i> and <i>Test Score Bar Graph Sheet</i> from Lesson I	
Writing Materials

Show Me Standards: Performance Goals (check one or more that apply and identify relevant process standards)

X	Goal 1: Gather, analyze and apply information and ideas 6. Discover and evaluate patterns and relationships in information, ideas, and structures 8. Organize data, information, and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation
X	Goal 2: Communicate effectively within and beyond the classroom 3. Exchange information, questions, and ideas while recognizing the perspectives of others
X	Goal 3: Recognize and solve problems 2. Develop and apply strategies based on ways others have prevented or solved problems 3. Develop and apply strategies based on one's own experience in preventing or solving problems
X	Goal 4: Make decisions and act as responsible members of society 5. Develop, monitor, and revise plans of action to meet deadlines and accomplish goals

This lesson supports the development of skills in the following academic content areas.

	Academic Content Area(s)	Specific Skill(s)
X	Communication Arts	1. Speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization) 4. Writing formally (such as reports, narratives, essays) and informally (such as outlines, notes) 6. Participating in formal and informal presentations and discussions of issues and ideas
X	Mathematics	3. Data analysis, probability, and statistics

	Science	
	Health/Physical Education	
	Fine Arts	

Unit Essential Questions:

How do I make decisions that will help me to be successful?
 How do individuals make positive changes?

Unit Measurable Learning Objectives:

The student will track five spelling test scores to determine (self-assessment) a goal for improving or continuing their performance.
 The student will establish a goal and identify at least three steps they will take to reach his/her goal.
 The student will chart and compare test score to determine if he/she has been successful in meeting his/her goal and predict their future performance.

Unit Instructional Strategies/Instructional Activities:

Direct (Compare & Contrast, Guided & Shared)
 Indirect (Problem Solving, Reflective Discussion, Writing to Inform)
 Experiential (Conductng Experiments)
 Independent Study
 Interactive Instruction

Unit Summative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE.
Assessment can be question answer, performance activity, etc.
 The student will track and analyze his/her test scores after setting a goal for score improvement.

Brief Summary of Unit:

Students will graph scores for their last 5 spelling test grades, reflect on their scores, brainstorm how to improve their scores and set a goal to achieve a higher score on the next spelling test; students will then reflect on their next spelling or other content score to see if they met their goal,

what steps they took to improve and how they can improve their next score.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Students should know how to interpret and make a bar graph; brainstorm ideas; follow directions, and write.

Lesson Preparation

<p>Essential Questions:</p> <p>How do individuals make positive changes?</p> <p>Engagement (Hook): Bring in the scale and show the students how it works even when there is nothing on it. Put cotton balls on the scale to signify 4 As on their spelling tests. Put 1 heavy rock on the scale to signify an F on a spelling test. Counselor lets the students know how much the F weighs their grade down.(Spelling is used as an example in this lesson but counselors and teachers may substitute other content areas assessment as deemed necessary per the school’s curriculum.)</p>

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:
1. Counselor hands out <i>Test Score Bar Graph</i>	1. Students place their writing and drawing

<p><i>Sheet</i> and list of last 5 spelling scores or other content area assessment scores for each child (each child places writing material on desk).</p> <ol style="list-style-type: none"> 2. Counselor instructs students to write their names at the top of their <i>Test Score Bar Graph Sheet</i>. 3. Counselor explains that the students are going to fill out the <i>Test Score Bar Graph Sheet</i> using their last 5 spelling test scores. Students are instructed to write the date of the oldest test score they have in the first column that says date. 4. Counselor directs students to write the score of the spelling test they took on that date under the date box. 5. Counselor directs the students to find the box that score would fall in and make a star in that box with their pencil. 6. After checking each student's paper, counselor directs the students to choose a crayon and color the column up to, and including, the box with the star. 7. Counselor continues the same procedure with all scores, leaving last column blank. 8. Counselor collects papers to save for Lesson 2 and hands out <i>Test Scores Goal Sheet</i>, instructing students to write their names on their papers. 9. Counselor directs students to write down their last 5 spelling test scores. 10. Counselor instructs students to pick a score higher than their last scores as their spelling goal for the week. 11. Counselor instructs students to come up with some ways to achieve their goals 	<p>materials on their desk.</p> <ol style="list-style-type: none"> 2. Students follow directions. 3. <p>(study the night before the test, study every night, get a study buddy to help, write the words 5 times, look for word patterns, etc) and to write them on their papers.</p> <p>12. Teacher closes lesson by collecting the <i>Test Score Goals Sheets</i> to save for Lesson 2 and reminding students to focus on their goals. Students are asked to discuss how this would help to improve grades.</p>	<p>12. Students respond with ways this strategy could help to improve their grades.</p>

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

Unit Essential Questions:

What are some of the positive outcomes of goal setting?

Unit Measurable Learning Objectives:

The student will set one goal and make a plan to accomplish that goal as measured by the “I Can Make a Plan” worksheet.
The student will identify one study skill or one reason why studying is an important step toward accomplishing an educational goal.

Unit Instructional Strategies/Instructional Activities:

- Direct (Didactic Questions, Guided & Shared)
- Indirect (Problem Solving, Reflective Discussion)
- Experiential (Games)
- Independent Study
- Interactive Instruction (Discussion, Problem Solving)

Unit Summative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE. Assessment can be question answer, performance activity, etc.
The student will complete a work page that will demonstrate the knowledge of goal-setting skills.
The student will demonstrate knowledge and understanding of strategies related to studying which may include time, location, and conditions to best learn, read, and do homework during a post-activity discussion session.

Brief Summary of Unit:

This unit is designed to teach students basic goal-setting skills that are needed to become successful learners. Lesson one teaches goal-setting skills in terms of setting long-term goals that can be accomplished by outlining a step-by-step plan that takes into consideration the need for problem-solving, revision, timelines, resources, rewards, and self-assessment. Lesson two helps students learn the skills necessary in making short-term goals.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Revise and practice education goal-setting and self-assessment skills.

Lesson Preparation

Essential Questions:
 Why is it important to set goals?
 How do you achieve a goal?

Engagement (Hook):
 John F. Kennedy once challenged our nation to be the first to put a man on the moon. Martin Luther King challenged our country to pass laws that would enable people of all races to have equal opportunity. What challenges do you ask of yourself? And what goals will you set to help you accomplish those challenges?

Procedures

<p>Instructor Procedures/Instructional Strategies:</p> <ol style="list-style-type: none"> The counselor will say, “Students, I challenge you to be goal-setters, and problem-solvers. Today, I want you to think about something that you thought you would never be able to do. Not too long ago, when I was a child, to see a man walk on the moon was something that didn’t seem possible. But, it was a goal that was accomplished with two important tools. Those tools were goal-setting, and problem-solving.” Counselor holds up a large sheet of paper with a picture of an astronaut attached to it and says, “Let’s pretend that this picture of an astronaut is a 	<p>Student Involvement/Instructional Activities:</p> <ol style="list-style-type: none"> Students will listen and watch.

The counselor will distribute the instruction page for the <i>Student Handout Sheet</i>. The students will be able to read the answers to the following questions:</p> <ul style="list-style-type: none"> • “What is our goal?” • “What is my timeline? How long do we have until we have to accomplish our goal?” • “What resources do I have to help me accomplish the goal? Who can help me and what tools do I have to help me?” • “Are there any limitations that will make accomplishing the goal seem difficult?” <p>3. The counselor will say, “Why should I even try to accomplish this goal? It seems impossible.”</p> <p>4. The counselor will say, “Okay, I don’t think I can accomplish this goal on my own. I’m going to need your help. Will you help me?”</p> <p>5. The counselor will say, “What is problem number one that is keeping me from accomplishing my goal?”</p> <p>6. The class will decide which solution to try first and then which to try second.</p> <p>7. Students will continue to answer the counselor's questions based on the answers on the student hand out.</p> <p>8. Students will enjoy the reward while completing the student work page. Teacher Follow-Up Activities

<p>1. Teacher may continue to use the goal-setting and problem-solving vocabulary introduced by the counselor in cross-curriculum settings such as in a spelling list, or in a writing assignment. An example of a writing assignment might be to ask the student to write a story about a goal that they were able to accomplish or a goal that they were still working on accomplishing.</p> <p>2. The teacher may allow the students the time and resources to create a list of famous people and the goals that they accomplished.</p>

Goal-Setting, Problem-Solving Game Rules

GOAL: What do I want to accomplish?

I want to get the astronaut into the jar.

TIMELINE: When do I want to accomplish my goal?

I have 15 minutes from now.

RESOURCES: What do I have that I can use to accomplish my goal?

I can ask anyone in the room for help and I can use any materials that are in the room.

LIMITATIONS: What might keep me from accomplishing my goal?

- ❖ I can not move from the place that I am standing now and no one else in the room can leave their seats.
- ❖ The paper that the astronaut is on is too big to fit in the jar.
- ❖ The jar can not be exchanged for another jar.

REWARD: What will I gain if I accomplish my goal?

I will be able to share the reward in the jar with the class.

PLAN: What steps will I take to accomplish my goal?

<i>Identify the Problem</i>	<i>Brainstorm Possible Solutions</i>	<i>Choose a Possible Solution to Try</i>	<i>Did it Work? If first solution didn't work, try another.</i>
The goal is too big. It seems impossible.	<ol style="list-style-type: none"> 1. Quit, give up. 2. Cut the project up into smaller more manageable pieces. 3. Get a bigger jar. 	Tear the picture of the astronaut off of the poster board.

3. Simon says "Everyone who studies before going out to play, stand up and touch your forehead."
 - Sit down please.
4. Simon says "Everyone who watches TV all the time after school, stand up and stick your tongue out as far as you can"
 - Sit down please.
5. Simon says "Everyone who never watches television on school nights, stand up and waive both arms like a champion"
 - Sit down please.
6. Simon says "Everyone who does homework in a quiet place away from phone and TV, jump up and down."
 - Sit down please.
7. Simon says " Everyone who does homework at about the same time everyday, stand up with both thumbs up"
 - Sit down please.
8. Simon says "Everyone who likes school, stand up and clap your hands."
 - Sit down please.
9. Simon says, "Everyone who likes math stand with your arms crossed."
 - Sit down please.
10. Simon says "Everyone who likes English remain seated and raise both arms."
 - Put your arms down, please.
11. Simon says "Everyone who likes science stand up and scratch their ears."
 - Sit down please.
12. Simon says "Everyone who plans to get good grades, stand on your left foot and scratch your head."
 - Sit down please.
13. Simon says "Everyone who plans to go to college, stand up, smile wide, and slowly walk clockwise around the classroom"
 - Sit down please.

Choose other categories appropriate for your students.

At the end of the game, have students sit in a circle. Ask each student to name one way in which he or she and another student are alike. Encourage students to say, for example, "I didn't know that Katie never watched TV on school nights" or "I didn't know that José loved math." Ask students to talk about new ways they plan to study more effectively in the future (set a goal). Go around the circle so that everyone will have the chance to say something. Encourage students to talk about goals to improve their studying and/or their grades.

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal plan of study.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

Unit Essential Questions:

How can planning guide my future?

Unit Measurable Learning Objectives:

The student will list at least three reasons he/she would need a plan and identify the academic achievement level he/she plans to achieve.
 The student will list at least three goals he or she wants to accomplish in life (work, family, and leisure).
 The student will develop a plan to reach at least three personal goals, including possible obstacles.

Unit Instructional Strategies/Instructional Activities:

Direct (Structured Overview; Compare & Contrast; Guided & Shared-Reading, Listening, View-Viewing, Thinking)
 Indirect (Reflective Discussion; Concept Formation; Concept Attainment)
 Experiential (Simulations)
 Independent Study
 Interactive Instruction

Unit Summative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE.
Assessment can be question answer, performance activity, etc.
 The student will select short- and long-term goals.

Brief Summary of Unit:

Students are encouraged to brainstorm and record preparations that need to be made for a vacation or long trip. A parallel is drawn between preparing for a long trip and preparing for middle school and secondary education classes; then to post high school life choices. Goal setting in sports' games are used as examples to help students comprehend the goal setting process in education and careers.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Ability to write and discuss ideas.

Approximately 15 minutes into the lesson, hand out other activity sheet <i>Why Do I Need A Plan?</i> Discuss what could happen if they didn't take care of the things listed on the other side (such as using a map or navigation system, having money, finding a place to stay, and/or planning for activities). Brainstorm ideas and write them down on the activity sheet (such as go hungry, get robbed, have to go back home, not get to visit places, etc).</p> <p>5. Discuss how having a plan makes for a safe, fun and exciting vacation. Draw a parallel between planning for a vacation and planning for an education. Discuss how students get to choose classes to take in middle school and high school and point out how they would need to figure out what subjects they enjoy. Students should be encouraged to participate in activities in which they excel. Direct students to write down what they enjoy doing in school.</p> <p>6. Discuss how understanding their strengths and abilities can help them prepare for life choices.</p>	<p>4. Students record suggestions.</p> <p>5. Students participate in the discussion, and write subjects and activities they enjoy in school.</p> <p>6. Students write down what they want to accomplish in life (work, family, leisure)?</p>

Lesson Measurable Learning Objectives:

The student will identify three goals.
 The student will identify one road block that could get in the way of accomplishing each goal.
 The student will identify the first step toward each goal.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE. Assessment can be question answer, performance activity, etc.
 Students will select long- and short-term goals in order to complete the “GOALS” activity sheet.

Lesson Preparation

Essential Questions: How can goals help me?

Engagement (Hook): Ask students to think of a game they would like to win. If a student chooses basketball, call this student to the front of the class and give this student three chances to make a goal. Call one or two more basketball fans to do the same. Introduce the terms *educational goals* and *opportunities*.

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal plan of study.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

<p>UNIT DESCRIPTION: Educational Plans Are Important</p> <p>Students are encouraged to brainstorm and record preparations that need to be made for a vacation or long trip. A parallel is drawn between preparing for a long trip and preparing for Middle School and Secondary Education classes; then to post High School life choices. Goal setting in sports' games are used as examples to help students comprehend the goal setting process in education and careers.</p>		<p>SUGGESTED UNIT TIMELINE: 2 Lessons</p> <p>CLASS PERIOD (min.): 30 minutes each</p>

Unit Essential Questions:

<p>How do past experiences contribute to your future?</p> <p>How does what you study in school relate to careers?</p>

Unit Measurable Learning Objectives:

<p>The student will define and analyze 16 vocabulary terms related to-PPS.</p>
--

The student will identify five components that are found on a personal plan of study.
The student will develop a list of activities and life experiences, then match activities and life experiences to components of a personal plan of study.
The student will write a paragraph outlining at least three activities he/she has participated, or will participate in, that will help them reach their career goals.

Unit Instructional Strategies/Instructional Activities:

- Direct (Explicit Teaching; Drill & Practice; Guided & Shared-Reading, Listening, Viewing, Thinking)
- Indirect (Case Studies)
- Experiential
- Independent Study (Journals)
- Interactive Instruction (Brainstorming; Peer Partner Learning; Discussion; Cooperative Learning)

Unit Summative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE.
Assessment can be question answer, performance activity, etc.
Students will share a written reflection narrative (paragraph) of *Cool Things I Can Do* generated from discussion of activities and what character and or work traits they will continue to develop in school.

Brief Summary of Unit:

Students will learn vocabulary related to a resource file (portfolio) and PPS, the purpose and parts of a PPS, and begin to recognize activities in which they have engaged and skills that they have acquired or can acquire to help them meet goals for the future.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Students need to have an understanding of the career paths as they relate to their future goals for the future.

HELP WANTED!!!

Sally decided it was time for a career change! She likes her volunteer work as a part of a local community service organization at the hospital, but the job really doesn't allow her to show her special skills and it doesn't match her personality and interests.

She knows she has excellent communication skills, some special training in animal care from working on her grandfather's farm, and has learned some really cool stuff through her family experiences at Joey's Petting zoo. Hey! She was even an official member of the Ranger Rick Club and has won several 4-H awards.

Her work history made her a perfect applicant for an assistant to the local veterinarian. She would love cleaning cages and helping to care for the animals. She may need further training or to study a specific subject in school to better prepare for this job?

After investigating what she still needs to learn and she what training is available she develops a plan to get the skills she needs. She can't wait to get started on her plan so she able to get this job she wants.

Lesson Measurable Learning Objectives:

The student will write a paragraph outlining at least three activities he/she has participated, or will participate in, that will help them reach their career goals.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE. Assessment can be question answer, performance activity, etc.

Students will share a written reflection narrative (paragraph) of Cool Stuff I Can Do generated from discussion of activities, their placement on the resume, and what character and or work traits they will continue to develop in school.

Lesson Preparation

Essential Questions:
How does one develop and demonstrate character and/or work traits?

Engagement (Hook):
Counselor asks, “Let’s imagine we are 6 years in the future and you are about to graduate high school. What personal character traits or work habits do you need to develop and demonstrate to reach your future goals?”

COURSE INTRODUCTION:**Academic Development**

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions

Developing and monitoring personal plan of study.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

Unit Essential Questions:

How does my current academic performance affect later career and education choices?

Unit Measurable Learning Objectives:

The student will construct a graph of his/her grades from previous year and the reporting period of the current year in order to assess his/her strengths and weaknesses.
 The student will write a journal entry/paragraph analyzing strengths and weaknesses of his/her personal graphs, including steps toward goal attainment.

Unit Instructional Strategies/Instructional Activities:

- Indirect (Reflective Discussion; Concept Mapping)
- Experiential (Charting/Graphing)
- Independent Study (Journals; Reports)
- Interactive Instruction

Unit Summative Assessment (acceptable evidence):

**Assessment should relate to the performance outcome for goals, objectives and GLE.
 Assessment can be question answer, performance activity, etc.**

Assessment for the unit will be completed through review of final student works, i.e. graphs, journal entries and/or reflection paragraphs.

Brief Summary of Unit:

In this unit students will analyze their strengths and weaknesses by graphing their grades. Using this information and a list of their life experiences, students will create their formal resumes and personal goal plans.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Students need to have developed general knowledge of self and have an accurate view of their academic standing, career interests, etc...

Students will need to review specialized career vocabulary presented in sixth grade that also applies to this lesson.

Students will self-assess by analyzing completed graphs of academic ability and performance and comparing results to requirements for career goals.

Lesson Preparation

Essential Questions:

How does my academic performance affect later career/education choices?

Engagement (Hook):

The counselor will ask the students if they have ever seen people looking at graphs to analyze data. Ask students to provide examples. Project or display examples of graphs. Counselor asks the students why businesses analyze information such as this.

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:
<p>1. After the hook, the counselor tells the students that today they are going to graph information regarding personal performance in school. The counselor will provide students with their individual grades. These grades could be from last school year and the first reporting period of the current school year or a series of bi-weekly or progress reports. Students will create a line graph with all courses plotted on the graph. The counselor will provide students with graph paper and colored pencils. Students will be instructed to plot the grade on the vertical axis and the reporting period on the horizontal axis. Students will be given enough colored pencils to graph each subject with a different color. If a school district has access to computers, students could create the graphs electronically in a spreadsheet program.</p>	<p>1. Teacher Follow-Up Activities

The counselor may need to follow up with an additional session to allow time for the completion of the graphs.

PLEASE NOTE: Be certain to address confidentiality of data. All data, including graphs, should be kept confidential as would be done with a test taken in the classroom. Students may, however, volunteer to share.

The student will complete a personal plan of study.

Brief Summary of Unit:

In this unit students will use information about self and careers gained in grades six through eight to successfully complete and evaluate a four to six year plan with the assistance of the middle school and high school counselors, as well as high school student mentors.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Students need to have developed a general knowledge of self and have a realistic view of their academic standing, career interests, etc.

Students will need to review specialized career vocabulary presented in sixth grade that also applies to this lesson.

Students will need to be aware of the different career clusters, graduation requirements and basic requirements for any post-secondary plans.

Lesson Preparation

Essential Questions:

What special vocabulary will I need to know in high school and in the world of work?
 To what extent do choices made and opportunities missed or taken impact short and long-term goals?
 How does academic performance affect later career/education choices?

Engagement (Hook):

High school students perform skit Pitfalls

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:
1. High school students, serving as mentors, will perform a skit entitled Pitfalls.	1. Students watch presentation and then think of other pitfalls they might experience due to poor choices in middle school.
2. Distribute High School Vocabulary Sheet.	2. Students review and discuss their understanding of the High School Vocabulary Sheet.
3. Counselor distributes and reviews the career clusters sheet and discusses post-secondary options.	3. Students discuss the career clusters and post-secondary options.
4. Counselor provides assistance and answers questions that students may have about choosing a career cluster.	4. Students use the knowledge they have acquired to choose a career cluster that aligns with their current interests.

5. Counselor instructs students to write a journal entry personalizing the career cluster activity.	5. Students write a journal entry personalizing the career cluster activity.

Pitfalls

Student 1: What's the matter with you?

Student 2 (crying): My whole life is ruined! I just found out I may not get accepted into the school I want!

Student 1: Geez, what happened?

Student 2: Well, it seems that the school I want to go to expects me to have already taken algebra, algebra II, geometry, calculus and trigonometry...in high school!

Student 3: Hey! I know you're an excellent student. I sat behind you in geometry. I don't think you ever missed a single problem.

Student 2: Yeah, well that's after I woke up. I didn't do very well in sixth grade, so I was put in 7th grade math instead of pre-algebra...and that meant I had to take pre-algebra as an 8th grader...and so on! Next year, as a senior I will be one class behind to meet my career goal. Ugh!

Student 3: Well, all may not be lost. Sure, it would have been better if you had planned it all out, but according to the counselor there are other options. It might be as simple as just having to take a dual-enrollment class next year.

Student 2: Really?

Student 3: Well, you'd better ask the counselor, but I think it would work. Now if I had as easy a solution to my problem.

Student 1: What's the matter with you?

Student 3: Well, I would be earning all sorts of honors in vocational agriculture if I had entered the program as a freshman. Now, like her, I'm behind. I never thought it would make that much difference. I'll do well, but I could have done better if I had planned it all out ahead.

Student 1: Looks like planning is very important—kind of like Lewis & Clark as they made their way across the United States. Do you think they just started out every day of the expedition not knowing what course they would take....just seeing where they happened to end up?

Student 2: I'm telling all my younger cousins and my little sister that planning is essential....and that what you do in middle school really *can* effect high school...even college!

Student 3: Well, don't forget to tell them to ask a counselor if in doubt. I've heard they're good at helping kids find their way.

Student 2: Oh don't worry...in fact I'm headed to see the counselor right now! Dual enrollment, huh?.....

Missouri Comprehensive School Counseling Programs:

Linking School Success to Life Success

To ensure that the work of educators participating in this project will be available for the use of schools, the Department of Elementary and Secondary Education grants permission for the use of this material for non-commercial purposes only.

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

Students will use graduation requirements, assessments, transcripts, educational, and career interests to review, revise, and implement Personal Plan of Study for lifelong learning.

Brief Summary of Unit:

Students will monitor and revise Personal Plan of Study written before high school. Course description booklets, transcripts, assessments and personal interest will be used for continued review and revisions of personal education plans. By the end of 12th grade, plans will have been revised and fully implemented for life-long learning.

What prior knowledge do students need (e.g. the steps to solving a problem) to be successful in this unit?

Lesson Measurable Learning Objectives:

The student will complete *Graduation Requirements Review* activity sheet.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLE. Assessment can be question answer, performance activity, etc.
 Students will analyze and assess graduation requirements by completing the *Graduation Requirements Review* activity sheet and through class discussion.

Lesson Preparation

Essential Questions:
 Why am I attending high school? What will I need to do in high school to reach my goals?

Engagement (Hook): The counselor will wear or carry in a graduation cap.
 Can you graduate by _____? How do you know?

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities
1. Hand out course description books or enrollment guides. Give instructions on completing <i>Graduation Requirements Review</i> .”	1. Students will review the course description to complete the <i>Graduation Requirements Review</i> activity sheet. (Suggestions include dividing students into groups of 5-6 to complete the activity sheet or students complete the activity sheet in a large group with counselor’s review on SMART Board. Students may complete activity sheet individually using course description/enrollment guide.)
2. Counselor will facilitate discussion that reflects student answers.	2. Students explain answers from their completed activity sheet.
3. Counselor discusses requirements for the next year	3. Students have opportunity to ask questions

Teacher Follow-Up Activities

Suggest to teachers to remind students of prerequisite classes. Teachers could ask students how many credits/courses they need of the class they are in to graduate.

Academic Development

The units in Academic Development are designed to assist students K-12 in developing the academic skills necessary to be successful in the classroom and in life. The three major areas covered in Academic Development are:

Applying skills needed for educational achievement.

Major Points: The emphasis in this area is developing “academic self efficacy”. This includes instilling the belief that every individual can set and attain academic goals. Self-management, study and test taking skills are systematically and intentionally taught to every K-12 student. Sources of help are available for students; they are taught to recognize the need for academic assistance and where and how to get help.

Applying the skills of transitioning between educational levels.

Major Points: The learning within this area includes helping K-12 students acquire the information necessary to make smooth transitions from grade to grade and setting to setting (e.g. elementary school to middle school; school to post-secondary options). Understanding expectations of teachers and requirements of subject areas are examples of information that will help students understand the changes required by transitions.

Developing and monitoring personal educational plans.

Major Points: The Missouri School Improvement Program requires all students to have individual educational and career plans that are initiated no later than 8th grade. This area places emphasis on the knowledge, understanding and skills K-12 students need in order to develop a meaningful educational plan. Specific tasks include: learning to set goals; developing a plan to reach goals; knowing where to go for information/assistance; reviewing and modifying plans.

<p>UNIT DESCRIPTION: My Personal Plan of Study</p> <p>Students will monitor and revise Personal Plan of Study written before high school. Course description booklets, transcripts, assessments and personal interest will be used for continued review and revisions of Personal Plan of Study. By the end of 12th grade, plans will have been revised and fully implemented for lifelong learning.</p>		<p>SUGGESTED UNIT TIMELINE: 6 Lessons</p> <p>CLASS PERIOD (min.): 30-50 minutes each</p>
