Unit #1 Title: Let’s Investigate

Lesson Title: Career Investigators Lesson: 1 of 2

Grade Level: 5

Length of Lesson: 45 minutes (this lesson may require two sessions, depending on the group)

Missouri Comprehensive School Counseling Big Idea:
CD.8: Knowing Where and How to Obtain Information about the World of Work and Post-Secondary Training/Education

Grade Level Expectations (GLEs):
CD.8.A.05: Compare and contrast the roles and responsibilities of workers within the six career paths.
CD.8.B.05: Compare and contrast the training and educational requirements for a variety of careers.

American School Counselor Association (ASCA) Mindsets and Behaviors: Career Development

Materials (include activity sheets and/or supporting resources)
Access to the Occupational Outlook Handbook (online version), the GOALs Toolkit, Missouri Connections online resource, or other career information resources.
Activity Sheet: Career Paths: Working Together in Our Community
Activity Sheet: Career Investigation
Sample Career Cards

Show Me Standards: Performance Goals (check one or more that apply)

| X | Goal 1: Gather, analyze and apply information and ideas |
|   | 8. Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
|   | Goal 2: Communicate effectively within and beyond the classroom |
|   | Goal 3: Recognize and solve problems |
| X | Goal 4: Make decisions and act as responsible members of society |
|   | 8. Explore, prepare for and seek educational and job opportunities |

This lesson supports the development of skills in the following academic content areas.

Lesson Measurable Learning Objectives

Assessment should relate to the performance outcome for goals, objectives and GLEs. Assessment can be question answer, performance activity, etc.

The student will compare and contrast the roles and responsibilities of workers within the six career paths through group activity.

The students will compare and contrast the training and educational requirements for a variety of careers.

Lesson Formative Assessment (acceptable evidence):

The student will share the results of his/her research by describing what the worker does and by contributing to the class activity.

Lesson Preparation

Essential Questions:
What are the roles and responsibilities of workers from the different career paths?
In what way are those roles/responsibilities alike? Different?
What education is needed for workers, who pursue a specified career?

NOTE: The counselor may need to enlist the assistance of a classroom teacher or other adult with this lesson.

Engagement (Hook): “I have a deck of cards with me, but these are not typical playing cards.”

Procedures

cards may be color-coded to match the various career paths.

NOTE: Samples are included with this lesson, but the counselor may tailor this activity to the other resources he/she has available.

2. Give one copy of the *Career Paths* information to each pair of students for reference. Review the information regarding the career paths. “Talk with your partner and decide which career path goes with your career. Do you have enough information to decide?”

3. Present students with the *Career Investigation* activity sheet - one per student team.

   “You and your partner are going be detectives. Your job is to find information about the career that you have been given.” Give students instructions on how they are to complete the activity sheet. Students may need explanation regarding some of the terms, such as *on-the-job training*, *apprenticeship*, *trade/technical education*, and *seasonal employment*.

   Distribute materials to students or have them go to the online resource to begin their investigation.

4. “You have been investigating a career. Now we will hear from each of the groups. What is the name of the career? What is the career path? What does the worker do?”

5. “We have a lot of careers that we have studied. Now we are going to discover how they are alike and how they are different.” Designate corners of the room and have students move to those corners in response to prompts from the counselor.
room to allow student teams to “vote with their feet.”

6. “Move to ___ if your career does not require a high school diploma.”
   “Move to ___ if your career requires a high school diploma.”
   “Does the career involve on-the-training or apprenticeship? Move to ____.”
   “Does your career require trade or technical education? Move to ___.”
   “If your job requires a college degree, move to ____.”

   Once the groups have sorted themselves out, ask them to identify the career and compare the number of careers and career paths that are represented. Did members of the same career path end up in the same group?

6. Students will move to the designated areas as the descriptors are called, which correspond to the career that they have investigated.

7. What are some ways that jobs in careers paths can be the same? How are they different? What else did you learn today?

7. Students respond.

Teacher Follow-Up Activities

Teacher will review students’ activity sheets and may need to allow time for completion before the next session.
Counselor reflection notes (completed after the lesson)
