Lesson Measurable Learning Objectives:

Students will draw a picture of one life-changing event.

Lesson Formative Assessment (acceptable evidence):

Assessment should relate to the performance outcome for goals, objectives and GLEs.

Assessment can be question answer, performance activity, etc.

Performance Task: Students will draw a picture of a life-changing event that might happen to them during this next year. They will share their event and how they think it might affect their life. The class will share ideas with the class that might help them handle the event.

Lesson Preparation

Essential Questions: How does it affect you when something changes at home? How does it affect you when something changes at school?

Engagement (Hook): The instructor comes to class with a cape and carrying a magic wand. Wear a hat or a crown. If you are more comfortable you can use a puppet or a picture of a wizard or fairy godmother.

Procedures

Instructor Procedures/Instructional Strategies:	Student Involvement/Instructional Activities:
1. The instructor asks if you were to have a wish for the future what would it be?	1. Students share their wish.
2. Think about your life timelines from last week. What were some of the changes that took place in your life?	2. Students respond.
3. The instructor introduces a puppet friend and says this is Freddie (or Fran) and their wish is to jump one-year into the future to next school year. The instructor steps onto the magic carpet and waves the wand and pretends to help Freddie jump one year into the future. He is now in second grade. What are some of the possible changes that Freddie might face in his life since he is a year older (positive and difficult)?	3. Students share ideas. Possible answers: He might experience some of the following...getting older, new teacher, new baby brother or sister, make a new friend, moving, new pet, learning new math skills, learn how to read better, school is harder, more work, you're smarter, have to miss your favorite shows because you have more homework, changes in his family or friend, more chores at home, etc.
4. The instructor steps back onto the carpet and says let's bring Freddie back to the present.	4. Students listen.

<p>5. The instructor gives the students a wish sheet for the future. The students are instructed to draw a picture of a wish they have for one year into the future or something they think might happen to them. The instructor may want to show the tree picture from the last lesson to remind students of the changes in a trees life during a year’s time.</p> <p>6. When completed students are asked to bring their pictures and sit down and make a circle around the magic carpet. The counselor introduces a quick problem solving method. Students are given an opportunity to share their picture for the future and how they think the event might affect their life.</p> <p>7. The instructor will use the STAR Model for Problem Solving. This model is used help students brainstorm problem solving ideas and coping strategies for change. Stop – What changing is happening? Think – is this a good thing or a bad thing? Act – What will help me deal with this change? Review – How is this going to affect my life?</p>	<p>5. Students will complete the picture.</p> <p>6. Students share their ideas. When the students share their ideas the puppet or students come up with ideas on how the student might cope with change using the STAR Problem Solving Model described in step seven. Ideas on how to cope with the change. Example: I will have a new teacher next year. You can work hard and listen then your teacher will think you are a good student. If your math work is harder you can study more. If you make a new friend you will have more friends. You might have more chores so you should get them done faster so you don’t have to miss your favorite television shows and your parents would be proud of you.</p> <p>7. Students will use the STAR Model with the instructor’s guidance when sharing their ideas on the activity sheet.</p>
