- [Listing of secondary credentials and how many have attained those in the last six years.](#)
 - Are these the right credentials? Discussion was had on this topic.

Working Lunch – CTSO Presentations

Strategic Plan Updates

- [CTE Strategic Plan-Student Achievement Subcommittee Recommendations](#)

Jackie Jenkins, Vicki Schwinke and Janice Rehak met on April 11 to review and make recommendations on the CTE Advisory Committee's student achievement goal. The CTE Advisory Committee has identified six priority areas related to student achievement:

- Relevant CTE programming
- Comprehensive professional development and retention of staff
- Graduate placement

- Improvement of students' technical skills attainment scores and increase IRC attainment
- Track CTE certificate earners
- Improve the graduation rate for CTE students

Priority recommendations include using the CCQI tool for program improvement and evaluation, review processes for certifying and supporting new CTE teachers—specifically those who come into teaching directly from industry, identify and use data to get a clear picture of students' post-graduation outcomes, revise current program standards and competencies, determine and leverage the value of the CTE certificate, and provide a robust and searchable data portal where information can easily be sorted and disaggregated within and among categories.

- Discussion regarding the recent CTE Perception survey.
 - Good response to the survey.
 - Steve Bryant and David Webb are working on pulling together and analyzing the data.
 - Suggestion was made to reopen this survey until April 30th in an attempt to obtain more information from business leaders, with the assistance of Chamber Federation.
 - Brian Crouse will connect Steve with analysts from the University of Missouri in order to analyze the data once received.

Public Comment Period

- No public comments.

WRAP UP/UPCOMING EVENTS

- CTE Advisory Council Update to the State Board of Education, June 11, 2019
