

Annual Fall Health Science Meeting

“HEALTH SCIENCE – ACTIVITIES IN A PINCH”

“Health Science – Activities in a Pinch” is a full, interactive program designed to help Health Science instructors use more “show” than “tell” in their instruction of anatomy, medical terminology, and physiology concepts. This training and curriculum provide specialized teaching techniques that improve instruction and knowledge retention through a variety of quick labs, demonstrations, media and technology suggestions, terminology, math, and literacy strategies that could be used in any Health Science classroom.

Agenda:

8:30-9:00 Registration

9:00-11:30 Morning Session

11:30-12:30 Working Lunch (Provided)

12:30-3:00 Afternoon Session

3:00 Adjourn

Location:

**Governor Office Building, Room 450
201 W Capitol Ave #216
Jefferson City, MO 65101**

OCTOBER 19TH, 2018!

Denise Abbott, RN, EMT

Her love for the medical field started when she earned her Licensed Practical Nurse (LPN) and Registered Nurse (RN) degrees while living in Virginia. She earned her BS in Biological Sciences from Brigham Young University. She worked for 15 years on surgical units with occasional shifts in Labor and Delivery and the Intensive Care Unit. She completed her EMT training at Utah Valley University. She holds several endorsements including Health and several in the Health Sciences. Denise has been the recipient of numerous honors and awards including the Provo School District Teacher of the Year. She is a past Chair for the International HOSA Inc. Board of Directors. Denise creatively combines her scientific training and her imagination to help design or re-design effective methods to teach health science students, teachers, and "Activities in a Pinch". She currently teaches Medical Anatomy and Physiology and Medical Principles and Practices/Medical Assisting at Timpview High School in Provo, Utah. She is also the current Utah HOSA State Director. In her free time, she loves everything Disney, writing and sending postcards, and most importantly spending time with her family and new grandbaby.

Robbie Rauzi, MEd, ATC, EMT

His passion for health science began in high school when he joined HOSA and fell in love with the sports medicine industry. He went on to earn his BS in Athletic Training from Weber State University. He acquired his Masters degree in Secondary Education from the University of Phoenix and completed his EMT training at Utah Valley University. He has worked in a variety of specialties including; outpatient physical therapy, high school health science CTE classroom teacher, account management and process development for a medical marketing firm. He currently works as the Customer Success Manager for Precision Exams. Robbie has been the recipient of numerous honors and awards including the Utah Association of Career and Technical Education Service Award and National HOSA Advisor of the Year. He currently serves as the Utah HOSA Competitive Events Chair. Robbie resourcefully applies his knowledge of the medical field, education, and marketing to creatively generate meaningful activities to inspire health science teachers and students with an interactive workshop and curriculum, Activities in a Pinch. In his free time, he loves spending time with his wife and three children promoting their nonprofit; WAR to Cure Cystic Fibrosis, and playing in the mountains outside of their home.
