

Example 1:

Frankardo said that  $126$  plus  $365$  equals  $492$ . Is his answer right or wrong? If he is incorrect, what mistake do you think he made?

Example 2:

Jose said a reasonable answer for  $126$  plus  $492$  would be  $300$ . Is that a reasonable answer? Why do you think it would be or wouldn't be reasonable?
