

Ohio state is wanting to improve their football score they are trying to determine whether or not their average score are the same scores so far.

August 1st	August 8th	August 15th	Sept 21st
35	40	30	55
Aug 29	Sept 1	Sept 8	
100	50	98	

what is the average?
is August 29th representative of the other scores?

what will happen to the average if you remove it?
explain your answer.
