ALIGNMENT WITH THE PRIORITIES OF THE DEPARTMENT OF EDUCATION

The Commissioner of Education has established four primary goals for Missouri's system of education, and recipients of funds through this grant shall ensure that funded activities shall be in support of these goals, or in those circumstances when one or more of the goals may not be applicable to the funded project or program, the recipient assures that no action or activity will conflict with the goal(s).

The Department's four goals are:

- (1) All Missouri students will graduate college and career ready.
- (2) All Missouri children will enter kindergarten prepared to be successful in school.
- (3) Missouri will prepare, develop, and support effective educators.
- (4) The Missouri Department of Elementary and Secondary Education will improve developmental efficiency and operational effectiveness.

Final determination of applicability of these goals to the funded project or program, and the degree in which activity is aligned with one or more goals shall rest with the Commissioner of Education.

1. INTRODUCTION AND GENERAL INFORMATION

The Department of Elementary and Secondary Education (department) is authorized by the Early Childhood Development Education and Care Fund to administer a program of competitive grants to governmental entities, public schools, or private agencies for voluntary, early childhood development, education, and care programs serving children in every region of the state not yet enrolled in kindergarten. This rule sets forth the general provisions governing those programs.

1.1 The Early Childhood Development Education and Care Fund, pursuant to section 161.215, was created to give parents meaningful choices and assistance in choosing the child care and education arrangements that are appropriate for their family. "The fund shall be used to support programs that prepare children prior to the age in which they are eligible to enroll in kindergarten, pursuant to section 160.053, RSMo, to enter school ready to learn. All moneys deposited in the early childhood development, education, and care fund shall be annually appropriated for voluntary, early childhood development, education and care programs....." The Department of Elementary and Secondary Education has designated their portion of the fund to promote high quality early care and education programs for children one or two years from kindergarten eligibility. MPP funds will be provided to programs through a competitive Invitation for Grant (IFG) process.

1.2 This is an Invitation for Grant (IFG) for projects that will result in high quality early care and education programs for age eligible children. Age eligible children are defined for the purposes of the IFG as children who are one or two years from kindergarten eligibility. To be eligible for kindergarten a child must be five years old before August 1 of the program year.

The IFG must be identified as an **EXPANSION OF PRESCHOOL SERVICES**:
The intent of these funds is to serve additional age eligible children either as a new program or as an expansion of an existing program. If preschool services are in existence, MPP funds may be used only for expenditures incurred because of the expansion, NOT for existing preschool program expenditures.

1.3 Although an attempt has been made to provide accurate and up-to-date information, DESE does not warrant or represent that the background information provided herein reflects all relationships or existing conditions related to this IFG.

1.4 This document constitutes a request for competitive grants for the **Missouri Preschool Program (MPP)**. Programs that are awarded and successfully complete the first year can be eligible for additional funds through a maximum of 4 renewal awards.

1.5 Pre-Award Conference:

- A. All potential grantees are highly encouraged to attend the pre-award conference in order to ask questions and provide comments on the IFG since information relating to this IFG will be discussed in detail. Attendance is not required to submit an IFG.

A **pre-award conference** regarding this **IFG for interested parties** will be held on April 20, 2015 from 10:00 a.m. to 3:00 p.m. in Jefferson City at the James C. Kirkpatrick State Information Center, 600 West Main Street, in the Interpretive Center room. Please see **Attachment A** for driving directions. Pre-registration is not required.

The agenda of the conference will follow the Administrative Manual and IFG. Items to bring to the pre-award conference:

- Missouri Preschool Program Administrative Manual
- IFG

Copies will not be available on site.

- B. Grantees are strongly encouraged to advise the Department of Elementary & Secondary Education (DESE) within five (5) working days of the scheduled pre-award conference of any special accommodations needed for disabled personnel who will be attending the conference so that these accommodations can be made.

- 2.1.22 The plan must reflect the results of the **community needs assessment** rather than an “opportunistic” approach to securing materials, equipment, etc. (see section 2.2 Program Development Requirements)
- 2.1.23 The MPP funds cannot be used to supplant or replace any existing preschool program or staff.

Eligibility for Future Funding

- 2.1.24 Private agency grantees who failed to meet the requirements of a previously awarded MPP will not be eligible for application for five (5) years after the year in which they defaulted.

- 2.2.2 The grantee may be required to develop and submit a new or revised activity plan at other times throughout the grant period as well as for each renewal period, if the grant is renewed for additional periods. The grantee must prepare and submit all such future activity plans within a time frame stipulated by the department.
- 2.2.3 **Community involvement.** A community advisory committee must assist in planning the preschool program for age-eligible children and in completing the Needs Assessment.
- 2.2.4 **Community-based planning.** Strong community commitment, leadership, and planning are critical to the success of the programs and services offered under the MPP.
- A. Step I - Administration. The grantee appoints an administrator who has both leadership ability and a strong commitment to early childhood education, especially preschool education. This administrator must -
- be knowledgeable and respectful of preschool opportunities within the community;
 - set goals and coordinate implementation timetables;
 - analyze the results of the programs;
 - exercise sufficient authority within a collaborative framework to accomplish the desired results;
 - be knowledgeable about business practices necessary to successfully sustain the program; and
 - report regularly to the Community Advisory Committee and should be prepared to manage a program organizational structure consisting of several different types of operation.
- B. Step II - Community Advisory Committee. The Community Advisory Committee, whose membership of citizens representing a variety of community organizations, is established. Primary responsibilities of the Community Advisory Committee are to -

- Assist in gathering information needed to complete the Community Needs Assessment;
- Make recommendations on the goals and objectives of the MPP;
- Assist on options for coordinating programs and services among community, school, and other preschool programs;
- Assist in the IFG process; and
- Serve as a resource.

C. Step III - Program Design. Based on the community needs assessment, the program will be designed to meet the needs of each community.

2.2.5 **Teacher qualifications.** All preschool programs funded by the MPP must utilize lead teachers and assistant teachers who have one (1) of the following minimum qualifications at the time the program begins operation. These qualifications must be maintained throughout the grant period.

2.2.6 **Curriculum models.** Preschool programs must implement a nationally recognized preschool curriculum model that is approved by the department. The lead teacher and assistant teacher involved in the MPP must be trained in the curriculum model. It is also highly recommended that the director/program administrator be trained in the chosen curriculum model. All curriculum trainings must be provided by the curriculum source. Programs must contact the source to schedule trainings. Any training not scheduled through the source will not be funded and will not meet the requirement. The selected preschool curriculum models meet the following criteria:

- Based on valid research;
- Have positive evaluation results;
- Provide ongoing professional development; and
- Developmentally appropriate for age-eligible children.

The current approved curriculum models are listed below along with the accepted training pieces that are required.

- 2.2.7 **Accreditation.** Programs are required to obtain accreditation from either the MoA or the NAEYC. The program must be accredited prior to the beginning of year four (4) operation. MPP operating in a center will be required to accredit the entire center including the infant/toddler classrooms and school age classrooms.

It is recommended that programs review specific information for each accrediting organization by accessing the link on the Table of Contents page of this Administrative Manual. When choosing an accrediting source programs should consider the requirements of each accrediting source and how they align with the MPP requirements and their program.

- 2.2.8 Plans for program activities.

A. **Parent Advisory Committee Plan.** An advisory committee of parents with children in the MPP classrooms must meet at least twice annually. The plan should include the roles of the members, selection procedure, replacement procedure, number of members, and frequency of meetings.

Documentation must be on file that includes a list of members, sign-in sheets, dates of meetings, and meeting minutes.

B. **Funding Plan.** The plan must demonstrate funding from a variety of sources including parental fees. A sliding fee scale based on family income is required for families whose income does not exceed one hundred eighty-five percent (185%) of the federal poverty level. Information must include how program growth issues will be addressed such as recruitment methods.

- C. **Child Development, Education, and Care Plan.** The plan must be appropriate to meet the needs of children served in the MPP program. The plan should describe how the preschool program will be designed and how it will meet the needs of preschool children as identified from the Needs Assessment. Information must include how program growth issues will be addressed such as recruitment methods. A copy of the proposed physical classroom design including measurements and the number of children to be served along with a daily schedule must be submitted.

The plan must address the transition issues of children moving from one program to another such as, from home to school or from preschool to kindergarten. A plan should be developed and implemented that will make these transitions as smooth as possible for all involved. The plan may include opportunities to share information between programs; informational packets for parents; kindergarten orientation days; meet the teacher nights; home visits by preschool and kindergarten teachers; visits to child care centers and Head Start programs by the kindergarten teachers, etc.

The plan must include how the preschool program will collaborate with community organizations and resources. Some examples may be working with the public library to provide a story hour, having a volunteer grandparent work in the classroom, having a safety program provided by the local police department, etc.

All MPP children must be provided with an annual health & nutrition screening and a developmental screening. We encourage programs to work with existing screening opportunities that may already be in place such as PAT, County Health Department, or Head Start.

- D. **Professional Development Plan.** Professional development opportunities include college-credit courses through T.E.A.C.H. Early Childhood Missouri[®], follow-up/advanced training of the selected curriculum model provided only by the approved curriculum source, professional conferences, seminars, consultants, and the department-required meetings. MPP funds only support professional development opportunities that are in addition to the DHSS required clock hours for child care providers. The plan should include a list of the specific professional development opportunities to be provided. Evidence of continuous professional development associated with the selected curriculum model must be included each year in the plan.

Professional development opportunities should reflect the general philosophy of the selected curriculum model.

- E. **Parent Education, Involvement, and Communication Plan.** The plan must address how parents will be informed about their child's development, opportunities to be involved in the preschool program and how the preschool program will communicate with parents on an ongoing basis. **Preschool programs must collaborate with the district's Parents as Teachers program for parent education.** MPP funds may be used to support PAT family personal visits to families of children participating in the MPP classroom, at the state reimbursement rate. Parent involvement could include serving on the Parent Advisory Committee, classroom volunteer, forming a preschool parent organization, etc. Communication with parents could include newsletters, parent-teacher conferences, notes home, phone calls, etc. Other options for increasing parental involvement and family strengths may include the following:

- Friendships and mutual supports with other families,
- Strengthening parenting skills within families,
- Responding to family crises,

- Linking families to services and opportunities in their community to meet the families' needs, and
- Facilitating children's social and emotional development.

F. **Community Plan.** The community plan includes collaboration/partnership efforts and activities among other licensed early care and education providers who are serving age-eligible children, located within the grantee's community. This collaboration or partnership may include joint professional development opportunities such as early childhood speakers/workshops, early childhood transition activities, and other community activities such as "Week of the Young Child", parenting fairs, child health fairs, and community library activities, etc. For activities that can be included in the MPP budget, refer to Section 2.4.2 Purchase Services.

Classroom equipment, materials and supplies must be selected from the *Materials and Supplies Guide for Early Learning Classrooms*, Attachment C, for the sole use in the MPP classroom. The quantity of items selected must reflect the number of children the program anticipates serving through the MPP classroom(s).

Other costs that are allowable under the Materials and Supplies category are those expenditures associated with becoming licensed. These expenditures must be under \$1,000 and be outlined by the child care specialist assigned by DHSS. **Please note the following exceptions of the Materials and Supplies category.**

The grantee further agrees that any substitution made pursuant to this paragraph must be equal or better than originally proposed and that the state agency's approval of a substitution shall not be construed as an acceptance of the substitution's performance potential.
