

April PAT Professional Learning Communities

(Registration information for these training opportunities is available [HERE.](#))

The 3 R's of Screening and Referrals (9:00 am – Noon)

Facilitated by Missouri PAT Consultants

A successful screening program relies on the parent educator's ability to promote the healthy growth and development of all children. Good health begins with knowing and understanding current information and best practice guidelines. This session for the experienced Parent Educator will visit the role of the parent educator in the screening process, look at the components of the PAT Health screening, discuss the most effective ways to use the Health Record, identify the "Red Flags" in the area of health, explore how and when to make a referral, and brainstorm resources, information, and follow-up activities for parents.

NOTE: Please bring the 2014 Foundational Curriculum Health Record and Screening Summary.

Required Documentation, Reimbursement and Planning (1:15 pm – 3:15 pm)

Department of Elementary and Secondary Education, Early Learning Staff

The Department's Early Learning staff will discuss the required documentation as outlined in the new ECDA Administrative Manual. Staff will share reimbursement requirements and the priorities for funding. In addition, a new tool will be highlighted to assist districts in planning for FY17 Allocations.
